en Afrique, la FAO a signalé que la prévalence de la sous-alimentation augmentait dans la région. Les dernières données montrent que la détérioration a ralenti, mais il reste 256 millions de personnes souffrant de la faim en Afrique aujourd'hui. Le rapport indique en outre que, bien que de nombreux pays africains progressent dans la réduction de la malnutrition, les progrès sont trop lents pour atteindre les six objectifs nutritionnels clés, qui font partie du cadre de suivi des Objectifs de développement durable (ODD) et des Objectifs mondiaux en matière de nutrition de l'Assemblée mondiale de la Santé. L'insécurité alimentaire s'est accrue en Afrique ces dernières années et le continent n'est pas en bonne voie d'éliminer la faim d'ici 2030. Les ralentissements économiques qui ont contribué à la sous-alimentation croissante en 2014-2018 ont été le résultat de la chute des prix des produits de base. Des nombreux outils politiques efficaces sont disponibles. Les pays doivent élaborer des politiques et investir pour parvenir à une économie plus diversifiée et réaliser une transformation structurelle inclusive. Toutefois, une croissance économique ne suffit pas: la réduction des inégalités, y compris les inégalités spatiales et entre les sexes, est essentielle pour renforcer la résilience des ménages, ouvrir la voie à une croissance inclusive, réduire l'insécurité alimentaire et s'attaquer à la formes multiples de malnutrition.

developments aimed at applying knowledge and techniques to optimize system performance, while at the same time promoting the health, safety and wellbeing of individuals. The proceedings include papers from researchers and practitioners, scientists and physicians, institutional leaders, managers and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies, domains and productive sectors. La couverture sanitaire universelle (CSU) vise à assurer la sécurité sanitaire et l'accès universel aux services de soins essentiels sans difficultés financières pour les individus, les familles et les communautés. La CSU permet une transition vers des sociétés et des économies plus productives et équitables et est inscrite dans les objectifs de développement durable (ODD) à l'horizon 2030. Mais la CSU ne devrait pas être mise en œuvre sans prendre en compte la qualité des soins fournis. Qualité signifie des soins efficaces, sûrs, centrés sur la personne, rapides, équitables, intégrés et efficaces. Des soins de haute qualité améliorent les résultats pour la santé et réduisent le gaspillage. Cela fait partie intégrante d'un système de santé durable et de grande valeur. L'accès universel à des soins de santé de haute qualité n'est pas un luxe que seuls les pays riches peuvent se permettre. Cela peut être réalisé dans tous les contextes avec un leadership, une planification et une mise en œuvre solides. Les résultats valent l'investissement. Bien que des progrès significatifs aient été accomplis pour améliorer la qualité des soins, des efforts supplémentaires sont nécessaires, tant dans les pays en développement que dans les pays développés. Ce rapport décrit la situation actuelle en matière de CSU et de qualité globale des soins, et décrit les mesures que les gouvernements, les services de santé et leurs travailleurs, ainsi que les citoyens et les patients, doivent prendre de manière urgente.

Le redressement de l' Afrique subsaharienne a été spectaculaire au cours des deux dernières décennies. Après de nombreuses années de déclin, l' économie du continent a commencé à reprendre de la vigueur au milieu des années 90. Grâce à cette croissance macro économique, la santé de la population s' est améliorée, le nombre des jeunes fr é quantant l' école a augmenté, et le taux d'extr ê me pauvreté a diminué de 54 % en 1990 à 41 % en 2015. La région a connu moins de conflits (en dépit de ceux qui couvent dans certains pays et du nombre inqui é tant des personnes déplac é es), un élargissement des libert é s politiques et sociales, et des progr è s dans l' é galit é hommes-femmes.

Malgré ces avancées, les défis sont énormes. La croissance économique a ralenti au cours des dernières années. Les taux de pauvreté affichés dans de nombreux pays sont les plus élevés du monde. Et la croissance démographique africaine provoque une augmentation du nombre des pauvres du continent. Au niveau mondial, on assiste à un déplacement de la pauvreté de l'Asie du Sud vers l'Afrique. La stabilité et la croissance macroéconomiques sont certes des composantes essentielles de la réduction de la pauvreté et de l'amélioration du bien-être, mais elles ne sont pas suffisantes. Ce rapport explore les points d'entrée critiques et les domaines d'action prioritaires pour l'accélération de la réduction de la pauvreté en Afrique. Au-delà de la stabilité et de la croissance macroéconomiques, il cherche à savoir ce qui peut encore être fait et à identifier les points sur lesquels les décideurs devraient se concentrer pour réduire la pauvreté. Un agenda des politiques favorable aux pauvres requiert de la croissance aux endroits où ceux-ci vivent et travaillent, ainsi que de s'attaquer aux nombreux risques auxquels les ménages sont exposés. En conséquence de quoi, le présent rapport a ajouté une optique « emplois » à son travail. Il met carrément l'accent sur la productivité et les moyens de subsistance des pauvres et des personnes vulnérables, autrement dit sur ce qui est nécessaire pour accroître leurs revenus. Il s'attache enfin à la manière de financer l'agenda de lutte contre la pauvreté et de développement.

Although the language of vocation was born in a religious context, the contributors in this volume demonstrate that it has now taken root within the broad framework of higher education and has become intertwined with a wide range of concerns. This volume makes a compelling case for vocational reflection and discernment in undergraduate education today, arguing that it will encourage faculty and students alike to venture out of their narrow disciplinary specializations and to reflect on larger questions of meaning and

purpose. In conversation with a growing range of scholarly resources, these essays advance the cause of vocational reflection and discernment well beyond its occasional mention in general education courses and career placement offices. The book's thirteen contributors all work in higher education, but they do so as biologists and musicians, sociologists and engineers, doctors and lawyers, college presidents and deans, and scholars of history, literature, and business administration. Together, they demonstrate that vocation has an important role to play across the entire range of traditional academic disciplines and applied fields.

Regardless of major, all undergraduates need to consider their current and future responsibilities, determine the stories they will live by, and discover resources for addressing the tensions that will inevitably arise among their multiple callings. *Vocation across the Academy* will help to reframe current debates about the purpose of higher education. It underscores the important role that colleges and universities can play in encouraging students to reflect more deeply on life's most persistent questions and to consider how they might best contribute to the common good.

The economic liberalization in India over the last three decades has provided a wealth of opportunity for entrepreneurs looking to start and expand their businesses. Since the economy opened up in the 1990s, entrepreneurial activity in the private sector has been largely responsible for the strong economic growth experienced in the country. India is presently the world ' s third largest source of start-ups, and was ranked the second most entrepreneurial country in the world in the recent Global Entrepreneurship Monitor (GEM) report, ahead of large economic powerhouses such as the United States, China and the UK. *Entrepreneurship in India* looks at the dynamic and changing nature of entrepreneurship in India. The book examines the history of entrepreneurship in India, different entrepreneurship models adopted, the entrepreneurial ecosystem and looks at the future of entrepreneurship in the country. This book will benefit

La cinquième édition de ce rapport met en lumière les récentes évolutions intervenues dans le secteur bancaire en Afrique et les options stratégiques pour toutes les parties prenantes. L'étude consacrée au secteur bancaire dans les différentes régions d'Afrique s'appuie sur les résultats de l'enquête de la BEI auprès des groupes bancaires présents sur le continent. Trois chapitres thématiques sont consacrés aux défis et aux opportunités dans le domaine du financement des investissements en Afrique : Investir pour des villes africaines durables ; Mobiliser des financements à l'appui des chaînes de valeur agricoles en Afrique : pourquoi et comment ; Transferts de fonds des migrants et développement du secteur financier en Afrique.

Communication is vital to the prosperity and survival of the community, with the quality of communication amongst its members directly improving or worsening the value of the community. However, with the increase in immigration and relocation of refugees, the need to accommodate diverse cultural groups becomes imperative for the viability and survivability of a community while posing challenges to communication. Intercultural and interfaith dialogue can be used constructively to cultivate, manage, and sustain diversity and wellbeing in particularly deeply divided communities. Intercultural and Interfaith Dialogues for Global Peacebuilding and Stability is a critical research publication that explores the importance of conflict resolution strategies among populations that include a varied amalgamation of cultural and religious backgrounds. With the increasing emphasis on intercultural understanding promoted by governments, civil societies, and international mediators, this book offers relevant remedies for major
