Paris, 1941: Joseph and Maurice are the sons of Roman, the local barber. At ages 10 and 12, the boys have so little understanding of the persecution of Jews that Joseph thinks nothing of swapping his yellow star for a bag of marbles. Despite their naivet , Roman knows that their best chance to escape the Nazi roundup is to flee on their own to Vichy, France, where their older brothers Albert and Henri have found safe haven.

The great value of Christian Duguay's "A Bag of Marbles" is the degree to which it makes such a barbaric and bewildering chapter in human history comprehensible for young audiences. Yes, the film recounts a real-life tale of survival, but the fate of its lead protagonists in no way diminishes the grueling hardships they face on every step of their journey.

In 1941 in occupied Paris, brothers Maurice and Joseph play a last game of marbles before running home to their father's barbershop. This is the day that will change their lives forever. With the German occupation threatening their family's safety, the boys' parents decide Maurice and Joseph must disguise themselves and flee to their older brothers in the free zone. Surviving the long journey will take every scrap of ingenuity and courage they can muster. And if they hope to elude the Nazis, they must never, under any circumstances, admit to being Jewish. The boys travel by train, by ferry, and on foot, facing threats from strangers and receiving help from unexpected quarters. Along the way they must adapt to the unfamiliar world beyond their city—and find a way to be true to themselves even as they conceal their identities. Based on an autobiographical novel by Joseph Joffo and adapted with the author's input, this true story offers a harrowing but inspiring glimpse of a childhood cut short.

mindless activity or do we consider it a precious gift' In 1,000 Marbles, author Jeff Davis shares a modern parable about discovering and appreciating life's finite nature. At age 55, a man realizes his life expectancy is about 75 years of age and calculates that he has about 1,000 Saturdays left to enjoy. He buys a thousand marbles and marks the passing of each Saturday by removing one marble from a jar. When he removes the last marble on his 75th birthday, he considers each subsequent weekend to be bonus time. And that's only the introduction to this incredible, inspirational list book. 1,000 Marbles offers a thousand thought-provoking ideas for what to do on your Saturdays. Load the family into the car and take a drive into the country. It's always better if you try to get lost on such a trip! Go fishing. Remember, a bad day of fishing beats a good day of working, anytime. Have you ever taken a ride in a hot-air balloon' I haven't yet, but I plan to spend a marble doing just that one day. On a warm summer day, I like to spread a blanket on the ground and take a nap. There's nothing like sleeping outside.

"Perhaps there is no simple, easy way to educate children about the Holocaust. Yet [this] new extraordinary work in the form of a nonfiction graphic novel for children is a valiant attempt to do just that. These testimonials... serve as a reminder never to allow such a tragedy to happen again."—BookTrib

Between 1933 and 1945, Adolf Hitler and the Nazi party were responsible for the persecution of millions of Jews across Europe. This extraordinary graphic novel tells the true stories of six Jewish children who survived the Holocaust. From suffering the horrors of Auschwitz, to hiding from Nazi soldiers in war-torn Paris, to sheltering from the Blitz in England, each true story is a powerful testament to the survivors' courage. These remarkable testimonials serve as a reminder never to allow such a tragedy to happen again.

It is no accident that you are holding this book right now. Behind the seemingly chaotic unfolding of your life, there exists a harmony where everyone has a special purpose and everything has a perfect moment. But if you're stuck in the "joyless zone"--that place where joy cannot enter and pain cannot leave--you cannot yet see this harmony. You may feel as if you have "lost your marbles."

"Granular materials are composed of macroscopic particles, not molecules, and yet they can assemble in disordered configurations, such is present in glass, and they exhibit both fluid-like and solid-like behaviors. This book gives a broad introduction to granular materials, a fast-developing field that impacts most science and engineering disciplines, describing the different types and origins of grains, natural and fabricated, and explaining the physical properties of a "pile" of grains. All the physical concepts that have been investigated during the last thirty years are described and illustrated in simple terms"--

From the age of five, Marcel Marceau knew he wanted to be a silent actor, just like Charlie Chaplin. When World War II intervened, he joined the resistance, helping to get young Jews to safety during this dangerous time. But Marcel never forgot his dream of being a mime artist and entertaining the world.
