Black Death - Wikipedia

The Black Death had a profound effect on art and literature. After 1350, European culture in general turned very morbid. The general mood was one of pessimism, and contemporary art turned dark with representations of death. The widespread image of the "dance of death" showed death (a skeleton) choosing victims at random.

Consequences of the Black Death - Wikipedia

The outbreak of plague in Europe between 1347-1352 CE – known as the Black Death – completely changed the world of medieval Europe. Severe depopulation upset the socio-economic feudal system of the time but the experience of the plague itself affected every aspect of people ' s lives. Disease on an epidemic scale was simply part of life in the Middle Ages but a pandemic of the severity of the Black Death had never been experienced before and, afterwards, there was no way for the people ...
