goods as well. The main agricultural export is olive oil (FAO, 14.07.2006).

Country Profile Tunisia - International Trade Centre

Even though agritech is in its infancy in Tunisia, the sector seems to have great potential, especially for business angels interested in the country. The Tunisian-French startup NextProtein, which produces food from fly larvae, managed in the spring to raise more than \$11.8 million. A dozen agritech startups are now active in this sector, in Tunisia.

In food production, too, they have continued to use traditional methods, often as they would prepare food at home though on a larger scale. Tunisia imports very few food products. Instead, manufacturers work seasonally with the crops available to them, believing that this way delivers the finest ingredients with the greatest flavour at the best price to use in their products.

Buy Tunisia Food - Why Tunisia?
What are the most endangered animals in the world? Surprisingly, conservationists can't agree on a universal top 10 list. Why? Well, for starters, populations are perennially in flux. Secondly, researchers use various models that disparately weigh contributing factors — like decline rates and community fragmentation.
