Einstein's thought process is often overlooked, and yet it is critical to fully appreciating (the scale of) his contribution. Perhaps this is because today we are drowning in reductionist science, and those set on pedestals (or wheelchairs) are minds without a higher process, only a more complex web of intellect (without he wisdom to match)?

~~Albert Einstein Buch — builder2.hpd collaborative.org~~

Draw a large circle; this will be Albert's head. Imagine the circle as a sphere and draw two perpendicular lines wrapping around it. The vertical line determines the center of the face and the direction the head should be facing. Along this line is also where the nose will be located. The horizontal line will determine where the eyes should be placed.
