Almost like training wheels for hooking up trailers, the Couple Mate helps guide your trailer hitch over the ball as you back up, so you don't have to constantly get out and check. Made from steel and double-dipped in zinc to help withstand the rigors of use, the Couple Mate fits most receiver hitch and ball combos. Slide the base over your trailer hitch and then install the ball through it and the hitch to hold it in place.

Trailer hitch alignment guide - Simmen, Robert G.

there used to be one or two hitch manufacturers that made a hitch that both swung left and right and also extended. the idea was that you got the hitch to within something like 18inches of the target. adjust the hitch under the coupling and secure the trailer to the hitch. then the towing vehicle pulled forward. and once the swing got to the centerline position, a spring loaded pin would lock the swing action. then the driver would back up, until the telescoping tube was seated against a stop ...
