Life Support (PALS) AHA recommends the following to successfully complete the course: 1. Identification and treatment of problems that place the child at risk for cardiac arrest 2. Application of a systematic approach to pediatric assessment 3. Use of the "evaluate-identify-intervene" sequence 4. Use of PALS algorithms and flowcharts 5.

**Preparing for your upcoming PALS course**

While CPR currently uses the C-A-B approach or compressions, airway, breathing, the Primary Assessment in PALS still begins with Airway. If the child airway is open, you, may move onto the next step. However, if the airway is likely to become compromised, you may consider a basic or advanced airway.
