768 Words4 Pages. CHM 2046L Lab Report: Antacids. Katie Wong. Lab Partner: Kealie Do. June 27, 2017. Abstract: The build up of stomach acid may cause irritation and excess pain to individuals. Luckily, antacids being a weak base can help relieve the symptoms and pain. Antacids, such as Gelusil, Medi-Firs, Alka Seltzer, and Alcalak are neutralizing agents of acids that become helpful to the human body when heartburn occurs.

**Lab Report On Antacids - 768 Words | Bartleby**

To begin the experiment, record the antacid brand name, the ingredients (active and inactive) in your antacid, the mass of the active ingredient, the price of the bottle, and the number of tablets in each bottle. Then, rinse the burets with deionized water and label them accordingly.

**Lab Report Analysis of an Antacid - CHM 121 - StuDocu**

For this particular experiment, back-titration occurs when an antacid is dissolved in excess HCl (aq) and the remaining acid is then neutralized by the standardized NaOH (aq) (Swartz, 2013).

**Acid-Base Titrations: Standardization of NaOH and Antacid**

Antacids are used to resist heartburn. We sometimes use them to treat this because antacids are a mild base that can neutralize acids in our stomachs, such as HCl. The purpose of this lab is to see how well each antacid neutralize hydrochloric acid. Procedure: 1. Obtain two burets, one for use with the HCl and others for use with the NaOH. 2.

Analysis Of Antacids Lab Report Answers Author: www.morganduke.org-2020-11-17T00:00:00+00:01 Subject: Analysis Of Antacids Lab Report Answers Keywords: analysis, of, antacids, lab, report, answers Created Date: 11/17/2020 4:21:58 PM

**Analysis Of Antacids Lab Report Answers**

Analysis of antacid Aim. The aim of this lab is to find how much 1 moldm<sup>-3</sup> of HCl is neutralized for different brands of antacids, per recommended dosage (1 tablet or 5ml of suspension) Variables. Independent variable: The brand of the antacid, there will be 5 brands, either one tablet or 5ml of suspension is used Dependent variable: The amount of 1 moldm<sup>-3</sup> of HCl that is neutralized, which will be measured b/ titrating the antacids with the HCl Controlled variable: The concentration of HCl ...

Analysis Of Antacids Lab Report Answers Right here, we have countless books analysis of antacids lab report answers and collections to check out. We additionally come up with the money for variant types and as well as type of the books to browse.

**Analysis Of Antacids Lab Report Answers**

You will know how much acid you started with and how much of it reacted with the NaOH, so you will be able to determine how much reacted with the antacid. Details: 1. Every person will perform a minimum of two trials on a particular antacid brand. People analyzing the same antacid will pool data after the analyses are complete.

**Analysis of Antacid Lab (1) - Chemistry 121 Laboratory ...**

Common ingredients in antacids are metal hydroxide and metal carbonate salts. The hydroxides provide hydroxide ion, OH<sup>-</sup>, which can react with H<sup>+</sup> (aq) to form H<sub>2</sub>O. Carbonates provide the carbonate ion, CO<sub>3</sub><sup>2-</sup>, which can react with H<sup>+</sup> (aq) to form H<sub>2</sub>O and CO<sub>2</sub>. The reactions of interest in this lab are neutralization reactions.

**Lab 4 - Determination of the Amount of Acid Neutralized by ...**

The active pharmaceutical ingredients (APIs) in antacids work by either raising the pH and/or by buffering the solution so it is resistant to further pH change. This lab will deal with antacids that work through. Figure 1. Antacids used in this experiment. Antacid IV - 2 the first mechanism.
