In order to differentiate word work, Jan Richardson (2009) suggests conducting a word study inventory with all students. This will help determine which level of word work an individual child needs. This word study inventory can be found in Jan Richardson 's book The Next Step in Guided Reading and on her website under the resource section .

Word Work - Guided Reading

Guided missiles work by tracking the location of the moving target in space by certain methods (eg. using a radar or following its heat signature), chasing it down and then finally hitting it with accuracy. Guided systems in missiles can be of various types, which serve different operational purposes.
