Get started with a public account. With a subscription to ArcGIS Online, organizations can manage all of their geographic content in a secure, cloud-based Esri environment. Members of the organization can use maps to explore data, create and share maps and apps, and publish their data as hosted web layers. Administrators customize the website, invite and add members to the organization, and manage resources.

The ArcGIS Data Loader is a Tool that converts the CLU data (CLU shapefile, CRP table, and Wetland shapefile) to ArcSDE database format. It is an executable file that must be run every time you want to add CLU data into ArcSDE. It must be run at least once per Service Center prior to working with CLU data in the ArcGIS CLU Maintenance Tool.
