The Armed Forces Special Powers Act (AFSPA) has become one of the most controversial laws, both in India and the world. A few NGOs and human rights activists have described it as draconian, alleging that it gives the armed forces unrestricted power to "arrest" without warrant, "destroy property" and "shoot to kill", besides providing them with complete immunity. The loud and continuous clamour against the Act has drawn the attention of various international organizations. The UN Special Rapporteur on Extrajudicial, Summary or Arbitrary Executions, Christof Heyns, has recently called for the repeal of the law, stating: "AFSPA allows the state to override rights. Such a law has no role in a democracy and should be scrapped." On the other hand, the armed forces hold that the AFSPA is necessary for tackling the growing menace of militancy and protecting their men from the unnecessary harassment caused by litigation. General V K Singh, the former chief of army staff and now a cabinet minister, has emphasized that the AFSPA is a "functional requirement" of the armed forces. This is the first book in India not only to attempt a complete analysis of the various provisions of the AFSPA, but also to provide an insight into the legislative efforts of other democracies to meet the challenges of growing terrorism. It delves into cases of human rights

violations in which members of the armed forces have been implicated, and at the same time, argues that it is equally important to safeguard the human rights of the members of the armed forces. In order to help find an amicable solution, the author makes a few recommendations for the consideration of the government and armed forces.

The legal system of the armed forces is evolving and moving towards civilianization, as the Armed Forces Tribunal completes five years of its existence. The laws governing the armed forces are of concern not just to members of the armed forces, but to every Indian. Thus, it is necessary for these laws to be understood and analysed by the legal fraternity, human rights activists, and military and government officials in the correct perspective in order to improve the system. A 'just' and 'fair' system is of great significance to the success or failure of the armed forces. This is the first attempt to deal with the laws relating to the Indian Army, Navy, Air Force and Coast Guard in one volume. The basic statutes of these forces as well as the subordinate legislations have been comprehensively analysed. Using famous cases relating to the armed forces, this book examines constitutional and statutory rights and privileges, administrative and minor punishments, step-by-step court martial process, review and revision of punishments, procedure of courts of inquiry, and the jurisdiction and functioning of the Armed Forces Tribunal. It provides an overview of the provisions of the Indian Penal Code and the Code of Criminal Procedure relating to members of the armed forces. In addition, it analyses the Criminal Court and Court Martial (Adjustment of Jurisdiction) Rules and the provisions of the Armed Forces Special Powers Act (AFSPA) in detail.

Military justice is changing rapidly due to both domestic and international influences. This book explains what is happening and why.
