From the choice of materials, the production of distinctive forms of implements, and the treatment that many axe-heads received, it is evident that they were ifocal objects (Cooney 2008: 206); therefore the meanings which were...

Axe heads and identity: An investigation into the roles of...

Axe-heads and identity: an investigation into the roles of imported axe-heads in identity formation in Neolithic Britain (Volume 1 and 2) This thesis addresses the significance accorded, past and present, to those axe-heads of flint and stone that were imported to Britain from the Continent. It starts from the premise that this poorly understood body of material has been overlooked and has been made effectively 'peripheral' in Neolithic studies, particularly over the past five decades or so.

The narrative presented here rests upon the argument that imported axe-heads came into what is today called Britain as objects of considerable significance. Specifically, they were items of high symbolic value that played a crucial role in fostering particular ways of thinking about, and addressing, social identity in the Neolithic period.

Axe heads and identity: an investigation into the roles...

The significant body of stone and flint axe-heads imported into Britain from the Continent has been poorly understood, overlooked and undervalued in Neolithic studies, particularly over the past half century. It is proposed, in this study, that the cause is a bias of British Neolithic scholarship against the invasion hypothesis and diffusionist model, and it is sought therefore to re-assess ...
