~~Bbc Gcse Bitesize Photosynthesis And Respiration~~

The effect of light intensity on photosynthesis can be investigated in water plants. Use Cabomba or Elodea, which are sold in aquarium shops. The plants will release bubbles of oxygen - a ...

~~Required practical activity - BBC Bitesize~~

Use BBC Bitesize to help with your homework, revision and learning. Find free videos, step-by-step guides, activities and quizzes by level and subject.

~~Home - BBC Bitesize~~

Three factors limit photosynthesis from going any faster. 1. Light level - Without enough light a plant cannot photosynthesise very fast, even if there is plenty of water and carbon dioxide. Increasing the light intensity will make photosynthesis faster. 2. Carbon dioxide level - Photosynthesis can be limited by the level of carbon dioxide. Even if there is plenty of light a plant cannot photosynthesise if it has run out of carbon dioxide.
