Queer Cities, Queer Cultures examines the formation and make-up of urban subcultures and situates them against the stories we typically tell about Europe and its watershed moments in the post 1945 period. The book considers the degree to which the iconic events of 1945, 1968 and 1989 influenced the social and sexual climate of the ensuing decades, raising questions about the form and structure of the 1960s sexual revolution, and forcing us to think about how we define sexual liberation - and where, how and on whose terms it occurs. An international team of authors explores the role of America in shaping particular forms of subculture; the significance of changes in legal codes; differing modes of queer consumption and displays of community; the difficult fit of queer (as opposed to gay and lesbian) politics in liberal democracies; the importance of mobility and immigration in modulating queer urban life; the challenge of AIDS; and the arrival of the internet. By exploring the queer histories of cities from Istanbul to Helsinki and Moscow to Madrid, Queer Cities, Queer Cultures makes a significant contribution to our understanding of urban history, European history and the history of gender and sexuality.

A cruise ship loses power in the North Atlantic. A satellite launches in the South Pacific. Professor Malcolm Clare, celebrated aviator, entrepreneur, and aerospace engineer, disappears from Stanford University and wakes up aboard an unknown jet, minutes before the aircraft plunges into the high seas. An extortionist code-named "Viking" has seized control of a private warfare technology, pitting a U.S. defense corporation against terrorist conspirators in a bidding war. His leverage: a threat to destroy the luxury liner and its 3,000 passengers. Stanford doctoral student Austin Hardy, probing the disappearance of his professor, seeks out Malcolm Clare's daughter Victoria, an icy brunette with a secret that sweeps them to Saint Petersburg. Helped by a team of graduates on campus, they must devise Trojan horses, outfox an assassin, escape murder in Bruges, and sidestep treachery in order to unravel Viking's scheme. Failure would ensure economic armageddon in the United States. Both on U.S. soil and thousands of miles away, the story roars into action at supersonic speed. Filled with an enigmatic cast of characters, Sabotage, Matt Cook's debut novel, is a sure thrill ride for those who love the puzzles of technology, cryptology, and people. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Sex, Time and Place extensively widens the scope of what we might mean by 'queer London studies'. Incorporating multidisciplinary perspectives [|](#) including social history, cultural geography, visual culture, literary representation, ethnography and social studies [|](#) this collection asks new questions, widens debates and opens new subject terrain. Featuring essays from an international range of established scholars and emergent voices, the collection is a timely contribution to this growing field. Its essays cover topics such as activist and radical communities and groups, AIDS and the city, art and literature, digital archives and technology, drag and performativity, lesbian Londons, notions of bohemianism and deviancy, sex reform and research and queer Black history. Going further than the existing literature on Queer London which focuses principally on the experiences of white gay men in a limited time frame, Sex, Time and Place reflects the current state of this growing and important field of study. It will be of great value to scholars, students and general readers who have an interest in queer history, London studies, cultural geography, visual cultures and literary criticism.

How does it feel to be here and there - at the same time? Maxwell Greyson refers to himself as a project manager but really only makes use of that title in an attempt to mask his ridiculousness, which is something that has plagued him all of his life. He unwittingly embarks on a quest to find what he's always sought. He finds it, or rather he finds something, but doesn't know exactly how to process it or what to do with it. What ensues is a journey that starts at zero and ends up near the edge of the multiverse. Or is it the other way around?

In Matthew Costello's widely acclaimed post-apocalyptic thriller, Vacation, NYPD cop Jack Murphy leaves the city with his wife, Christie, and kids, Kate and Simon. Retreating to the supposed safety of a bucolic camp for families, Jack discovers that the plague of cannibalism that has claimed so many cities, is here as well. And only his self-sacrifice will enable his wife, his kids to get out. In Home Christie tries to return to the gated security of their home. At least in that world, there were security guards with AR-15s, and electric fences. But when Christie returns, she discovers that -- for them -- home has vanished, replaced by what is left of the civilized world quickly collapsing around them. Worse, another change has taken hold with humanity [|](#) and that very word, humanity did not apply any more. Now in the last volume in the series, Family, a wounded Christie, Kate and Simon, more like equals than a mother and kids, must flee that world to find if there is any place that can be safe for them, any place that they can be a family. Any place [|](#) where they can survive. And as in the first book, sometimes only the most terrible sacrifice will allow your family to live.

From the New York Times bestselling author of The Family Business crime series comes a deliciously provocative legal page-turner about the Hudson family. When famed attorney Bradley Hudson learns of his youngest son Langston's arrest for drug trafficking, he immediately assembles a team of lawyers and investigators, including members of his own family, to build a defense. With his reputation for being a shark in the courtroom, Bradley is confident he will get justice for his son until he realizes he will be going up against an old foe, Assistant District Attorney James Brown. Is the ADA allowing his personal history with the Hudsons to influence his handling of the prosecution? To complicate matters, Bradley discovers that his older son, Lamont, a young lawyer and Bradley's right-hand man, has secretly been planning his exit from the family law firm to get out from under his father's shadow. Desiree, Bradley's only daughter, is fresh out of law school and quite reserved compared to her siblings. She's the good girl who doesn't normally like to rock the boat, but in what could be considered the worst of all timing, she is secretly dating a man and a woman, and both relationships are on a collision course. Given the problems her family is facing, now is not the right time for Desiree to introduce more drama to the mix, but she just can't seem to help herself. As if fighting for one son's freedom and fending off the other's betrayal isn't enough pressure, Bradley is also in the middle of his own love triangle between his ex-wife, federal judge Jacqueline Hudson, and his current wife and jury consultant, Carla. He knows how much is at stake if his family's drama spirals out of control, so he'll do everything within his power to keep it all together and prevent his son from landing behind bars. With his trademark dramatic style, Carl Weber introduces readers to the Hudsons. Only time will tell if they can stand united, or if the legal dynasty of Bradley Hudson is about to come crashing down.
