The idea of disappearing games is that children find a space where they are out of sight of others. This could be under a table, in a box, or in a cosy corner hidden away in a room somewhere. Hide and seek is the ultimate disappearing game, and that, arguably, is probably easier to play indoors than out.

Just when he was at the top of his game... She changed the rules.
Baltimore Blaze tight-end Brody Janik is a natural born football star. At twenty-seven, his record-breaking athletic performance and his cover-boy good looks have turned him in to a household name. But Brody’s hiding a major secret behind his charming, public persona: a health condition that may cut his career short.
PhD candidate Shannon ‘Shay’ Everett works multiple jobs to put herself through school—including an unpaid internship with the Blaze training department. Strapped for cash, Shay answers the call of a NFL gossip blogger to uncover personal details about the Blaze players. Sneaking in to the locker room one night, she gets entangled in Brody’s secret... and swept up by his charm. Brody isn’t sure what to make of the gawky girl with the whiskey eyes, especially when he discovers she was snooping. His first instinct is to turn her in as a snitch, but she could destroy him by sharing his secret. Instead, he decides to keep her close... perhaps closer than either of them originally intended. This title was previously released with a different cover.

Prior to the real-estate boom of the 1980s, Francis J. Greenburger risked it all to buy three older loft buildings at 50 West Street near the current 9/11 Memorial. He ultimately dreamed of one day erecting a magnificent skyscraper in their place. But disaster struck in 2008, just as his plans were coming together, and development came to a screeching halt. The global financial crisis had made the land practically worthless and it would be years before he could get back on track, but he refused to give up on his dream. Today, 50 West is a striking 780-foot skyscraper with curved glass windows that has become an iconic feature on the city skyline—but it took much more than a financial investment to get there. It required Greenburger to do what he does best—take huge risks at every turn. During his parallel careers, Francis J. Greenburger has made publishing and real-estate history. Whether risking the reputation of his agency for the super -star authors of tomorrow, such as James Patterson to Dan Brown, or pioneering the New York co-op market by taking “hopeless” properties and turning them into prized homes, he has successfully navigated the worlds of business, politics, and social change to become the quintessential American entrepreneur. A math and business prodigy who started working for his father at the age of 12. After a stop-and-start academic career, he voluntarily left one of the most elite and academically distinguished New York City high schools and started his adult life at 15. Greenburger has made it his life’s work to find value where others never thought to look, and his keen instincts and innovative strategies have taken him from a high-school “dropout” to a well-educated self-made billionaire. Francis has mastered the “risk game.” Now, with Rebecca Paley’s gripping prose, he takes us behind the scenes in Risk Game and reveals firsthand how he has become a self-made force in the competitive world of New York real estate—and a champion for nonprofit organizations in the fields of art, education, and, most recently, social and criminal justice.

#1 NEW YORK TIMES BESTSELLER • A bold work from the author of The Black Swan that challenges many of our long-held beliefs about risk and reward, politics and religion, finance and personal responsibility In his most provocative and practical book yet, one of the foremost thinkers of our time redefines what it means to understand the world, succeed in a profession, contribute to a fair and just society, detect nonsense, and influence others. Citing examples ranging from Hammurabi to Seneca, Antaeus the Giant to Donald Trump, Nassim Nicholas Taleb shows how the willingness to accept one’s own risks is an essential attribute of heroes, saints, and flourishing people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights:
• For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations.
• Ethical rules aren’t universal. You’re part of a group larger than you, but it’s still smaller than humanity in general.
• Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others.
• You can be an intellectual yet still be an idiot. “Educated philistines” have been wrong on everything from Stalinism to Iraq to low-carb diets.
• Beware of complicated solutions (that someone was paid to find). A simple barbell can build muscle better than expensive new machines.
• True religion is commitment, not just faith. How much you believe in something is manifested only by what you’re willing to risk for it. The phrase “skin in the game” is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management, but it’s also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, “The symmetry of skin in the game is a simple rule that’s necessary for fairness and justice, and the ultimate BS-buster,” and “Never trust anyone who doesn’t have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them.”

Love is worth more than the sum of its hearts... CPA Merrit Callahan learned early not to let passion unravel her orderly life. Back in college she fell hard for a football player, only to be devastated when she discovered he’d been duping her all along—dared by his teammates to score with his bookish tutor. Now, after her back-stabbing fiancé breaks off their engagement, Merrit flees to Baltimore to escape the fallout. After eight years in the pros, a series of concussions have forced Heath Gibson out of the NFL. The transition from player to coach for the Baltimore Blaze hasn’t been smooth, but finding himself face-to-face with Merrit Callahan makes the ride even rockier. He’s been filled with regret ever since a stupid team prank caused Merrit to run away from him a decade earlier. Merrit’s stunned to reconnect with Heath. And despite the authenticity of his reignited feelings this time around, Merrit’s got her mind set on payback. She’ll give Heath a night he won’t forget and then walk away. But Heath’s hold on her heart—and the rest of her body—is difficult to break... Includes a preview of the next Out of Bounds novel, Risky Game. Praise for Tracy Solheim “She’s in the running for romance novelist rookie of the year.”—Rhapsody Book Club Tracy Solheim is the author of international bestselling contemporary romance novels featuring hot football players and the women who love them. In addition to writing novels, she is a regular columnist for USA Today’s Happily Ever After Blog. She lives in Georgia with her husband, two nearly adult children, a Labrador retriever who thinks she’s a cat and a horse named after her first novel: Game On. When Tracy’s not at the barn with her daughter or working out with friends—i.e. lifting heavy bottles of wine—she’s writing. Except for when she’s reading, but that’s just research.

Everyone says I'm a bad girl. They're only partly right—I don't let fear rule me, and I certainly don't care what people think. But I draw the line at sleeping with the enemy. As the daughter of Briar's head hockey coach, I'd be vilified if I hooked up with a player from a rival team. And that's who Jake Connelly is. Harvard's star forward is arrogant, annoying, and too attractive for his own good. But fate is cruel—I require his help to secure a much-coveted internship, and the sexy jerk isn't making it easy for me. I need Connelly to be my fake boyfriend. For every fake date...he wants a real one. Which means this bad girl is in big trouble. Nothing good can come from sneaking around with Jake Connelly. My father would kill me, my friends will revolt, and my post-college career is on the line. But while it's getting harder and harder to resist Jake's oozing sex appeal and cocky grin, I refuse to fall for him. That's the one risk I'm not willing to take.
