Sec.A12.0011.AAALTERNATIVE METHOD OF OPERATION. As an alternative to operating in the manner generally provided by this title, an independent school district, a school campus, or an educational program may choose to operate under a charter in accordance with this chapter. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.

Special Education Law 6e, written by Laura Rothstein and Scott F. Johnson, provides a comprehensive and current overview of the major federal law, and judicial interpretations of those laws, that apply to special education students. School administrators and attorneys attend to special education issues on a regular basis, and local superintendents, principals, special education professionals, psychologists, and regional and state administrators must also be familiar with the legal requirements of educating students with disabilities. Classroom teachers in all types of classrooms need to be aware of the laws that affect them and their students. Special Education Law 6e is intended for students in education and educational administration, both graduate and undergraduate, as well as law students in courses on special education law, school law, and special education. The framework of this book begins with five introductory chapters on the major issues that are addressed in special education law. These topics include an overview the legal system, the history of special education, major statutes in special education law, stakeholders such as students, families, educators, and advocates, and finally, requirements for protection under various special education laws. The remainder of the text presents and analyzes special education case law within specific contexts. The text helps educators understand what the law requires so that they can make decisions that comply with these laws. Updates for the sixth edition include a major reorganization of the text. Chapters have been streamlined and edited for clarity, combining a previous chapter on Related Services with Free Appropriate Publication Education, and folding Eligibility into Identification, Evaluation, and Eligibility, so students can better see the connections between these topics. Many case excerpts have been shortened or summarized to provide students with a more straightforward and focused reading experience. The latest updates in statutes, regulations, and case law are included throughout the text.

Includes extra and special sessions.

This book could save you \$1 million! OK, maybe not - but some school districts have spent that much defending themselves (and not always successfully) in First Amendment lawsuits brought by students and their parents. First Amendment litigation is on the rise across the nation, and as any principal who has sat through a deposition in one of those cases can tell you, the raw emotions and zealous anger that fuels such disputes can become a massive distraction from your real job of running a school. *The Oldest Rule* is a comprehensive examination of the different First Amendment issues involving students that public school administrators and attorneys are increasingly facing on daily basis. We will look at such topics as school prayer, dress codes, student threats and cyberbullying, the distribution of literature, the use of public facilities by outside groups, the celebration of religious holidays, and the rise of esoteric religions and their impact in the public schools. Written by Chris Gilbert, an attorney with over twenty-one years' experience advising and representing school districts - big and small, urban and rural -- this book combines discussions of the legal standards and key case decisions with practical advice and hypotheticals.
