This book explores children's lives across the Global North and Global South in the context of academic discussions of childhoods. The edited volume offers a unique selection of materials suitable for teaching in the areas of children, childhoods, young people, families, and education in a global context, as well as specific aspects of international development and social policy. While the focus of the project is conceptual rather than practical, the holistic understanding of childhoods that it encourages should also enable practitioners to better ensure that they are improving the lives of the children.

The first of John N. Oswalt's two-part study of the book of Isaiah for the NICOT series, this commentary on chapters 1–39 combines theological acumen, literary sensitivity, philological expertise, and historical knowledge to present a faithful and accurate reading of one of the Old Testament's most important books. In the introduction to this work, Oswalt considers Isaiah's background, unity of composition, date and authorship, canonicity, Hebrew text, theology, and problems of interpretation, and he offers a select bibliography for further research. Oswalt also provides substantial discussions of several issues crucial to the book of Isaiah. He notes, for example, that scholars often divide Isaiah into three divisions, with chapters 1–39 addressing Isaiah's contemporaries in the eighth century B.C., chapters 40–55 presupposing the exile of the sixth century, and chapters 56–66 presupposing the eventual return from exile. While taking this scholarship into account Oswalt defends the unity of the prophetic book and argues convincingly that the whole book can be attributed to the Isaiah of the eighth century. The commentary proper, based on Oswalt's own translation of the Hebrew text, provides pastors, scholars, and students with a lucid interpretation of the book of Isaiah in its ancient context as well as an exposition of its message for today.
