The construction industry is amidst a digital transformation that is focused on addressing well-documented issues and calls for significant improvements and changes through

Download File PDF Ciob Competencies Examples

increased productivity, whole-life value, client focus, reduction of waste, and being more sustainable. The key aspect to driving change and transformation is the education and upskilling of the required workforce towards developing the required capacities. Various approaches can be

Download File PDF Ciob Competencies Examples

taken to embed digital construction within education and through collaborative efforts in order to drive change and facilitate improvements. The Handbook of Research on Driving Transformational Change in the Digital Built Environment focuses on current developments in practice and
