3 This is the usual denition of the cartesian product of two sets. One of the points of emphasis in this class will be not just objects or constructions but rather maps

into/out of objects. With that in mind, given the cartesian product X Y, can we say anything about maps into or out of X Y?

English IV Notes The Middle Class Along
with the Industrial Revolution in the 19th
century (1800s) came the emergence of a

new middle class. Men could work in such jobs while women remained at home with the children. ? Molded the view that men alone were responsible for financially providing for their families. Maintaining the world of work was a violent one that consisted of temptations and ...
