Combat Tactics allows for more conditional tactics to be used during combat. Using the Tactics system, these scripts allow the character to perform certain actions provided that the conditions are met. For example, when a character falls below 50% health, the character will drink a potion. This skill is most helpful for players who wish for their party to function without tactical intervention during combat.

Military tactics encompasses the art of organizing and employing fighting forces on or near the battlefield. They involve the application of four battlefield functions which are closely related – kinetic or firepower, mobility, protection or security, and shock action. Tactics are a separate function from command and control and logistics. In contemporary military science, tactics are the lowest of three levels of warfighting, the higher levels being the strategic and operational levels ...
