The Complete Idiot's Guide to Running a Half Marathon. By Megan Harrington. If you're a runner, chances are the half marathon distance is on your radar. According to the annual half marathon report compiled by Running USA, nearly 2 million runners finished a 13.1-mile race in 2015. The distance is popular for good reason: It's long enough to feel like a major accomplishment, but the training isn't as time-consuming as a full marathon.

Marathons, Half-Marathons, and even 5K and 10K's aren't done overnight. They require discipline, training, and a plan. The plan doesn't need to be strict or stringent but it should be preferably a tested plan by someone else who has gone through the process before. Fortunately, we have a few simplified sample plans below:
