Fundamentals of Computer by Saurabh Agrawal is a publication of the SBPD Publishing House, Agra. In the present time, the Computer is an integral part of our lives. Much of the work we do now involves computers in one way or the other. Thanks to this piece of machinery, the world has shrunk into a global village. It gives the author great pleasure in presenting the First Edition of this book Fundamentals of Computer in the hands of students and their esteemed Professors. The present book targets to meet in full measure the requirements of students preparing for B.B.A., B.Com. and other Professional Courses of various Indian Universities. Salient features of this book are as follows- 1. The motto of this book is to provide the easy and obvious understanding of the subject to the students. 2. Every best effort has been made to include the questions asked in various examinations in different years. 3. The subject matter of this book is prepared scientifically and analytically. 4. Volume of the book and size of different topics have been kept keeping in view to meet out the need for examinations.

This book consist the fundamental of Computers applications for beginners as well experts.

The book focuses on the status of vocational education programs, challenges of achieving quality and attaining competitive excellence in a globalized socioeconomic order, and the role of government and industry in achieving these avowed goals. India's transition to a knowledge-based economy requires a new generation of educated and skilled people. Its competitive edge will be determined by its people's ability to create, share, and use knowledge effectively. A knowledge economy requires India to develop workers-knowledge workers and knowledge technologists-who are flexible and analytical and can be the driving force for innovation and growth. Developing skilled workers enhances the efficiency and flexibility of the labor market; skills bottlenecks are reduced, skilled workers are more easily absorbed into the economy, and their job mobility is improved. In this light, an effort is made in this book to describe and analyze governmental skill development initiatives in India. The book also dwells on the need to revive traditional family centric vocations pursued in the rural communities, especially those dying village-based vocations that provide livelihood options to a multitude of socially disadvantaged artisans, and integrate them into the fabric of skill development initiatives in place. The book provides a systematic understanding of the processes of skill formation and provides several pathways for enhancing entrepreneurial skills in a business ecosystem with a huge knowledge capital gained through skill development initiatives. Toward this end, the book seeks to contribute toward understanding the structures and processes of governance and initiatives for enhancing the quality of skilling programs. The book also dwells on various opportunities and challenges of augmenting a multitude of skilled workforces made available through various skilling initiatives and programs.
