Download the Construction Documents & Services Exam Guide [PDF] Given the name of this division, it's no surprise that about half the multiple choice questions will cover aspects of Construction Drawings and what goes into a Project Manual.

A PRACTICAL GUIDE FOR THE CONSTRUCTION DOCUMENTS & SERVICE DIVISION OF THE ARE To become a licensed architect, you need to have a proper combination of education and/or experience, meeting your Board of Architecture's special requirements, as well as passing all seven divisions of the Architect Registration Examinations (ARE). This book provides an ARE exam overview, resources, exam prep and exam taking techniques, tips and guide, a realistic and complete set of Mock Exams, solutions, and explanations for the Construction Documents & Service (CDS) Division of the ARE. This book covers the following subjects: 1.ARE, IDP, and Education Requirements 2.ARE Exam Content, Format, and Prep strategies 3.Bidding Procedures and Documents 4.Codes and Regulations 5.Environmental Issues 6.Construction Administration Services 7.Construction Drawings 8.Project Manual and Specifications 9.Contractual Documents 10.Project and Practice Management 11.Two Building Section Vignettes with Step-By-Step Solutions Using NCARB Practice Program Software This book includes 100 challenging questions in the same difficulty level and format as the real exam (multiple-choice, check-all-that-apply, and fill-in-the-blank), and two graphic vignettes. It will help you pass the CDS division of the ARE and become a licensed architect! About the author Gang Chen holds a master's degree from the School of Architecture, University of Southern California (USC), Los Angeles, and a bachelor's degree from the School of Architecture, South China University of Technology. He has more than 20 years of professional experience. Many of the projects he was in charge of or participated in have been published extensively in Architecture, Architectural Record, The Los Angeles Times, The Orange County Register, and more. He has worked on a variety of unusual projects, including well-known, large-scale healthcare and hospitality projects with over one billion dollars in construction costs, award-winning school designs, highly-acclaimed urban design and streetscape projects, multifamily housing, high-end custom homes, and regional and neighborhood shopping centers. Gang Chen is a LEED AP and a licensed architect in California. He is also the internationally acclaimed author of other fascinating books, including Building Construction, Planting Design Illustrated and the LEED Exam Guides Series, which includes one guidebook for each of the LEED exams. Services division of the ARE. Downloadable PDF files, which can be imported into your drafting software, allow you to practice creating graphic vignette solutions. Practical tips for approaching the multiple choice sections, solving the vignettes, and using the vignette software help you avoid common mistakes. Updated codes and standards provide you with the most current ARE review materials.

Written by Arthur Kornblut, AIA, this course is a comprehensive review of the architect's services in administering the construction of building projects. Among the subjects covered are: \* Standard construction contracts. \* Review and approval of materials and equipment. \* Determining compliance with drawings and specifications. \* Field samples and testing. \* Changes in the work. \* Progress payments. Also included in the course are maintenance of project files, preparation of final inspection lists, processing documents for project close-out, and assessing the responsibility for construction failure. Each lesson is supplemented with a review quiz, and the course is concluded by a major simulated examination. Complete explanations of all quiz and exam answers are included.

This course, written by Charles R. Heuer, FAIA, discusses the architect's services in translating design concepts, building materials, and systems into construction documents. Among the subjects covered are: \* Working drawings and specifications \* Consultants' documents \* Bidding and cost estimates \* General and special conditions of the construction contract \* Advice to the owner Diagrams and examples serve to illustrate the material of this course. A review quiz is included at the end of each lesson, and at the conclusion of the course is a major simulated exam. Complete explanations of all quiz and exam answers are included.

A study course for the Architect Registration Exam (ARE).

A study course for the Architect Registration Exam (ARE).

Practice by taking multiple-choice exams on your own computer! Now you can prepare for the actual computer exams by simulating the exam experience. The "ALS Computer Mock Exams are as close as you can get to the real thing! Each "Mock Exam simulates the form and style of the actual computer exam and is contained on CD-ROM. For each of the six "Mock Exams, candidates can access a series of tests, each comprising 25 multiple-choice questions randomly selected and arranged from a pool of 100 questions. Our "computer Mock Exams have a built-in timer clock, calculator, reference material where applicable, and a tutorial. Unlike the actual exam, the "ALS computer programs indicate the score and percentage of correct answers at the conclusion of each test segment, as well as the correct answer to each question and a detailed explanation. Candidates will find the "ALS Computer Mock Exams invaluable in preparing for the computer ARE. This software is unique and available only through Dearborn Publishing.
