Assessment is an essential part of teaching and learning, but too often it leads to misleading conclusions—sometimes with dire consequences for students. How can educators improve assessment practices so that the results are accurate, meaningful, informative, and fair? Educator and best-selling author Myron Dueck draws from his firsthand experience and his work with districts around the world to provide a simple but profound answer: put student voice and choice at the center of the process. In this engaging and well-researched book, Dueck reveals troubling issues related to traditional approaches and offers numerous examples of educators at all levels who are transforming assessment by using tools and methods that engage and empower students. He also shares surprising revelations about the nature of memory and learning that speak to the need for rethinking how we measure student understanding and achievement. Readers will find sound advice and detailed guidance on how to \* Share and cocreate precise learning targets, \* Develop student-friendly rubrics linked to standards, \* Involve students in ongoing assessment procedures, \* Replace flawed grading systems with ones that better reflect what students know and can do, and \* Design structures for students' self-reporting on their progress in learning. Inspired by the origins of the word assessment—derived from the Latin for "to sit beside"—Dueck urges educators to discard old habits and instead work with students as partners in assessment. For those who do, the effort is rewarding and the benefits are significant

Discusses the best methods of learning, describing how rereading and rote repetition are counterproductive and how such techniques as self-testing, spaced retrieval, and finding additional layers of information in new material can enhance learning.

The team of teachers and mathematicians who created Eureka Math™ believe that it's not enough for students to know the process for solving a problem; they need to know why that process works. That's why students who learn math with Eureka can solve real-world problems, even those they have never encountered before. The Study Guides are a companion to the Eureka Math program, whether you use it online or in print. The guides collect the key components of the curriculum for each grade in a single volume. They also unpack the standards in detail so that anyone—even non-Eureka users—can benefit. The guides are particularly helpful for teachers or trainers seeking to undertake or lead a meaningful study of the grade level content in a way that highlights the coherence between modules and topics. We're here to make sure you succeed with an ever-growing library of resources. Take advantage of the full set of Study Guides available for each grade, PK-12, or materials at eureka-math.org such as free implementation and pacing guides, material lists, parent resources, and more.

Unleash powerful teaching and the science of learning in your classroom Powerful Teaching: Unleash the Science of Learning empowers educators to harness rigorous research on how students learn and unleash it in their classrooms. In this book, cognitive scientist Pooja K. Agarwal, Ph.D., and veteran K–12 teacher Patrice M. Bain, Ed.S., decipher cognitive science research and illustrate ways to successfully apply the science of learning in classrooms settings. This practical resource is filled with evidence-based strategies that are easily implemented in less than a minute—without additional prepping, grading, or funding! Research demonstrates that these powerful strategies raise student achievement by a letter grade or more; boost learning for diverse students, grade levels, and subject areas; and enhance students ' higher order learning and transfer of knowledge beyond the classroom. Drawing on a fifteen-year scientist-teacher collaboration, more than 100 years of research on learning, and rich experiences from educators in K–12 and higher education, the authors present highly accessible step-by-step guidance on how to transform teaching with four essential strategies: Retrieval practice, spacing, interleaving, and feedback-driven metacognition. With Powerful Teaching, you will: Develop a deep understanding of powerful teaching strategies based on the science of learning Gain insight from real-world examples of how evidence-based strategies are being implemented in a variety of academic settings Think critically about your current teaching practices from a research-based perspective Develop tools to share the science of learning with students and parents, ensuring success inside and outside the classroom Powerful Teaching: Unleash the Science of Learning is an indispensable resource for educators who want to take their instruction to the next level. Equipped with scientific knowledge and evidence-based tools, turn your teaching into powerful teaching and unleash student learning in your classroom.

This Book can be used as both a study guide for students AND an instructional guide for teachers. It is the perfect companion to introducing popular literature in any classroom!Master the material and ace any assignment with this innovative study guide series. This book is perfect for both students and teachers, as it produces true mastery of content knowledge and book details. Other study guides simply give basic details of the novel, meaning that students read over material without digesting or learning it. Other study guides take complex themes, concepts, and information and just regurgitate it to readers. This Study Guide series is different. Using the original text as a guide, you will learn to cite evidence from the text in order to complete and reflect on your reading.Designed under the guidance of an experienced and credentialed instructor, this study guide series GUIDES the learner to discovering the answers for themselves, creating a fully detailed study guide, in the user's own words. Filled with guided reading activities, students are able to fill this guidebook with their own information. If you read it, write it, and reflect on it, you will learn it!Teachers, you can also purchase a set of these books (or one book and make copies) for your entire class. It makes the perfect guided reading activity and will teach students how to internalize the reading, note taking, and learning process that advanced readers naturally perform. These make the perfect workbook to keep your class engaged and learning.
