A Star Trek: Original Series novel featuring James T. Kirk, Spock, and the crew of the U.S.S. Enterprise! The crew of the U.S.S. Enterprise is completing a diplomatic mission with the Maabas, an alien race with whom they'd been sent to sign a treaty. The Maabas are a peaceful people who are not native to the star system they now inhabit, but were refugees from a great war long ago. Several hundred thousand took shelter on their new planet, and have been there for thousands of years. While they have warp capability, they do not travel the stars, but seek to explore within. The Federation's interest is in the Maabas's great intellectual resources. Their science, while behind Federation standards in some areas, excels in others. They are highly intelligent, with unique approaches, and their philosophy is in line with that of the Federation. But just as the pact is signed, the Enterprise is attacked by an unknown ship. They manage to show enough force to keep the alien vessel at bay...but a new danger arises, as their mysterious foes are the Kenisians—a race that used to inhabit this planet thousands of years ago, and now want it back. ™, ®, & © 2015 CBS Studios, Inc. **MERE ANARCHY** A new six-part epic covering thirty years of Star Trek ® history, continuing with an adventure that takes place during the "lost years" following the historic five-year mission! **Book 3: SHADOWS OF THE INDIGNANT** As Admiral James T. Kirk adjusts to life at Starfleet Operations on Earth, he discovers some shipping irregularities centered around Mestiko. Authorized to go on a fact-finding tour to the planet, Kirk takes along his old friend Dr. McCoy, now a civilian "old country doctor," to investigate. What Kirk finds is a web of intrigue, complicated by his status as Dinpayav, an outsider. He must convince Raya elMora -- now a major player in the ad hoc world government of Mestiko in the years following the disaster -- to help him before Mestiko becomes the pawn of someone else's political game....

Seven months ago, Captain Jean-Luc Picard and the USS Enterprise rescued a Federation cargo ship and a Romulan Warbird, both drained of power by an unknown source and mysteriously trapped together in the Neutral Zone. Five months ago, the captain of the USS Exeter launched a log buoy from her helpless ship, reporting it adrift and without energy for reasons she is unable to explain. Now, a power plant on Mars has gone down, leaving tens of millions in the dark. Reports of remote outposts losing power, ships stranded in space, and unexplained dead zones throughout the United Federation of Planets are beginning to cause a general panic. But Starfleet sends Picard and the Enterprise to Romulan space with orders to enter as covertly as possible and rendezvous with a high-ranking Romulan named T Sart. An infamous war criminal and a cold-blooded killer, T Sart's expertise runs from biological warfare to high-tech weaponry. Now he claims he is planning to defect - but even though the rendezvous was arranged with Vulcan Ambassador Spock's authentication codes, no contact with the Ambassador himself can be established. Sabotaging the project of his one-time protege, T Sart arranges the destruction of a Romulan warbird - the distraction for his pickup - with disturbing ease. But T Sart insists he is trying to save the universe, not destroy it - and the Federation may have no choice but to take him at his word.

Starbase 27 has gone dark, functions grinding to a halt as its energy source mysteriously fails. A province on Bajor reverts to pre-cardassian power plants - where it can. Three Vulcan cargo ships are lost with all hands aboard. The mysterious dead zones continue their expansion, creating havoc throughout civilized space. Communication, transportation, medical facilities, replicators - without this technological infrastructure, the United Federation of Planets will descend into primitive chaos. On board the Starship

Enterprise is the one man who may be able to halt the deadly decay. T Sart, an egomaniacal war criminal whom Picard and his crew suspect of treachery and lunacy, plans to save both the universe and his own career by manoeuvring Picard into a position of weakness even as the two men work together as allies. He leads Picard to a planet on the edge of a black hole from which the decay appears to emanate. There, Picard and the Enterprise must hijack technology beyond their comprehension to save the lives of billions - and prepare themselves to sacrifice millions on the planet below.

A thrilling Star Trek novel starring Kirk, Spock, and the crew of the Enterprise. While exploring the unmapped frontier, the U.S.S. Enterprise responds to a distress call from an unknown ship. Captain James T. Kirk turns first contact into a threat of interstellar war—by saving the life of a man his own people abandoned. Berlis, colony leader of a telepathic race calling themselves the Isitri, claims not to know why those from his homeworld want him dead. Now Kirk must either find a way to wrench billions from the grip of one man, or be responsible for the destruction of two planets.

The Hidran race and the Klingon Empire have been at each other's throats for seventy years, and Captain Jean-Luc Picard has been asked to do the near-impossible: take the U.S.S. Enterprise™ to the planet Vex to mediate a treaty that will end the conflict between these two aggressive species. Things get off to a rocky start -- then turn deadly as the Hidran ambassador mysteriously dies, and kills a Klingon delegate as a last act of vengeance. When Lt. Worf is charged with the ambassador's assassination, and Commander Riker and Counselor Troi are trapped far below the surface of the planet, Captain Picard must not only act to save the Hidranas and Klingons from each other, but to save his Klingon officer from a hideous death sentence...

A novel based upon the explosive Star Trek TV series! The U.S.S. Discovery's specialty is using its spore-based hub drive to jump great distances faster than any warp-faring vessel in Starfleet. To do this, Lieutenant Paul Stamets navigates the ship through the recently revealed mycelial network, a subspace domain Discovery can briefly transit but in which it cannot remain. After responding to a startling distress call originating from within the network, the Discovery crew find themselves trapped in an inescapable realm where they will surely perish unless their missing mycelial fuel is found or restored. Is the seemingly human man found alone and alive inside the network the Starfleet officer he claims to be, or an impostor created by alien intruders who hope to extract themselves from the mycelial plane at the expense of all lives aboard Discovery?

An original novel set in the universe of Star Trek: The Original Series! 2268: Following the encounter with the mysterious Gary Seven in the twentieth century, the crew of the U.S.S. Enterprise is startled by two intruders who have transported through space and time from Earth circa 1968. Incredibly, one of the infiltrators is a Vulcan, who asserts that he's lived among Earth's population for over a decade. The other represents a little-known race, and reveals to Captain James T. Kirk that she has spent that last twenty years working to bring about humanity's destruction. It is then that Gary Seven's young protégé, Roberta Lincoln, arrives seeking Kirk's help... 1947: In the wake of the infamous "Roswell Incident" involving a crashed alien craft and beings from another world, Captain James Wainwright finds himself recruited as one of the first members of Majestic 12, a secret organization with two goals: Collect evidence of extraterrestrial activity on Earth, and develop strategies to combat alien invaders. And it is this very mission that will consume Wainwright's life for the next two decades, driven by the knowledge that the danger is as real as the aliens living among us... ™, ®, & © 2013 CBS Studios, Inc. A new "classic" story starring Kirk, Spock, and the crew of the Enterprise, coinciding with the premiere of the new Star Trek movie from director J.J. Abrams. While exploring the unmapped frontier, the Starship Enterprise responds to a distress call from an unknown ship. Captain James T. Kirk turns first

contact into a threat of interstellar war—by saving the life of a man his own people abandoned. Berlis, colony leader of a telepathic race calling themselves the Isitri, claims not to know why those from his homeworld want him dead. Now Kirk must either find a way to wrench billions from the grip of one man, or be responsible for the destruction of two planets.

A mysterious cosmic force is destroying the very fabric of subspace, rendering warp travel and interstellar communication impossible throughout scattered regions of the galaxy. Even worse, these "dead zones" are spreading rapidly, bringing the entire Alpha Quadrant to the brink of a new dark age. Only Captain Jean-Luc Picard and the crew of the Starship Enterprise™ stand a chance of reversing the decay by tracking the disruption to its ultimate origin. Beyond the boundaries of the Federation, deep in uncharted space, Picard and his treacherous Romulan allies have discovered the source of the crisis: a vast alien mechanism suspended between a black hole and a nearby inhabited planet. The ancient device is all that prevents the imperiled planet from disappearing into the voracious black hole, but its cataclysmic effects are eroding subspace at speeds faster than light. Now Picard faces a wrenching dilemma: must he sacrifice an entire world to save the galaxy?
