and how a former apprentice boy rose in status to challenge the ruling elite and affect the death of a monarch. The first full-length biography of its subject, it is a fascinating story of a man who, until now, had all but vanished from history.

On an icy winter 's day in January 1649, a unique event in English history took place on a scaffold outside of Whitehall: Charles I, King of England, was executed. The king had been held to account and the Divine Right of Kings disregarded. Regicide, a once-unfathomable act, formed the basis of the Commonwealth 's new dawn. The killers of the king were soldiers, lawyers, Puritans, Republicans and some simply opportunists, all brought together under one infamous banner. While the events surrounding Charles I and Cromwell are well-trodden, the lives of the other fifty-eight men – their backgrounds, ideals and motives – has been sorely neglected. Their stories are a powerful tale of revenge and a clash of beliefs; their fates determined by that one decision. When Charles II was restored he enacted a deadly wave of retribution against the men who had secured his father 's fate. Some of the regicides pleaded for mercy, many went into hiding or fled abroad; others stoically awaited their sentence. This is their shocking story: the ideals that united them, and the decision that unmade them.

Philip Skippon was the third-most senior general in parliament 's New Model Army during the British Civil Wars. A veteran of European Protestant armies during the period of the Thirty Years ' War and long-serving commander of the London Trained Bands, no other high-ranking parliamentarian enjoyed such a long military career as Skippon. He was an author of religious books, an MP and a senior political figure in the republican and Cromwellian regimes. This is the first book to examine Skippon 's career,

which is used to shed new light on historical debates surrounding the Civil Wars and understand how military events of this period impacted upon broader political, social and cultural themes.

'Could challenge CJ Sansom for dominion' Sunday Times London, 1656: Captain Seeker is back in the city, on the trail of an assassin preparing to strike at the heart of Oliver Cromwell's Republic The Commonwealth is balanced on a knife edge. Royalists and disillusioned former Parliamentarians have united against Oliver Cromwell, now a king in all but name. Three conspirators, representing these factions, plan to assassinate the Lord Protector, paving the way back to the throne for Charles Stuart once and for all. Captain Damian Seeker, meanwhile, is preoccupied by the horrifying discovery in an illegal gambling den of the body of a man ravaged by what is unmistakably a bear. Yet the bears used for baiting were all shot when the sport was banned by Cromwell. So where did this fearsome creature come from, and why would someone use it for murder? With Royalist-turned-Commonwealth-spy Thomas Faithly tracking the bear, Seeker investigates its victim. The trail leads from Kent's coffee house on Cornhill, to a German clockmaker in Clerkenwell, to the stews of Southwark, to the desolate Lambeth Marshes where no one should venture at night. When the two threads of the investigation begin to join, Seeker realises just what - and who - he is up against. The Royalists in exile have sent to London their finest mind and

greatest fighter, a man who will stop at nothing to ensure the Restoration. Has Seeker finally met his match?
