The DOT Language -  
Graphviz

DOT is a graph  
description language.

# File Type PDF Dot Language

DOT graphs are typically files with the filename extension gv or dot. The extension gv is preferred, to avoid confusion with the extension dot used by versions of Microsoft Word before 2007. Various programs can process DOT files. Some, such as dot, neato, twopi,

# File Type PDF Dot Language

Graphviz, circo, fdp, and sfdp, can read a DOT file and render it in graphical form.

Others, such as gvpr, gc, acyclic, ccomps, sccmap, and tred, read DOT files and perform calculations on the represented graph
