Althou. As Tudors go, Elizabeth of York is relatively unknown. Yet through her marriage to Henry VII she became the mother of the dynasty, with her children including a King of England (Henry VIII) and Queens of Scotland (Margaret) and France (Mary Rose), and her direct descendants including three Tudor monarchs, two executed queens and, ultimately, the Stuart royal family.

Elizabeth of York: The Forgotten Tudor Queen by Amy Licence

In this study of Elizabeth of York, Licence opens with the controversial marriage of her parents, whose union upset the balance of power at the Yorkist court. From an early age, the rivalry between her paternal family of York and Neville and her mother's Woodville relatives created tension, exploding in the events of 1483, when Elizabeth's uncle, Richard of Gloucester, declared Elizabeth and her siblings to be illegitimate, and took the Crown.

As Queen, Elizabeth of York is less well documented than future generations of Tudor women but Amy Licence reveals hints of the personality behind the illustration on playing cards to a broad popular audience in Elizabeth of York: The Forgotten Tudor Queen. Elizabeth's Yorkist ancestry, popularity with the English people and intercessory activities were crucial to establishing the Tudors as a legitimate dynasty during the reign of Henry VII->

The biography of Henry VII's queen, and mother of Henry VIII, the true story of the 'White Princess'

The biography of Henry VII's queen, and mother of Henry VIII, the true story of the 'White Princess'

NEW YORK TIMES BESTSELLER [] Bestselling historian Alison Weir tells the poignant, suspenseful and sometimes tragic story of Elizabeth, eldest daughter of the Yorkist King Edward IV and sister of the Princes in the Tower, a woman whose life was inextricably caught up in the turmoil of the Wars of the Roses and the establishment of the usurping Tudor dynasty. She was the wife of Henry VII and mother of Henry VIII. Many are familiar with the story of the much-married King Henry VIII of England and the celebrated reign of his daughter, Elizabeth I. But it is often forgotten that the life of the first Tudor queen, Elizabeth of York, Henry's mother and Elizabeth's grandmother, spanned one of England's most dramatic and perilous periods. Now New York Times bestselling author and acclaimed historian Alison Weir presents the first modern biography of this extraordinary woman, whose very existence united the realm and ensured the survival of the Plantagenet bloodline. Her birth was greeted with as much pomp and ceremony as that of a male heir. The first child of King Edward IV, Elizabeth enjoyed all the glittering trappings of royalty. But after the death of her father, the disappearance and probable murder of her brothers—the Princes in the Tower, and the usurpation of the throne by her calculating uncle Richard III, Elizabeth found her world turned upside-down. She and her siblings were declared bastards. As Richard's wife, Anne Neville, was dying, there were murmurs that the king sought to marry his niece Elizabeth, knowing that most people believed her to be England's rightful queen. Weir addresses Elizabeth's possible role in this and her covert support for Henry Tudor, the exiled pretender who defeated Richard at the Battle of Bosworth and was crowned Henry VII, first sovereign of the House of Tudor. Elizabeth's subsequent marriage to Henry united the houses of York and Lancaster and signaled the end of the Wars of the Roses. For centuries historians have asserted that, as queen, she was kept under Henry's firm grasp, but Weir shows that Elizabeth proved to be a model consort—pious and generous—who enjoyed the confidence of her husband, exerted a tangible and beneficial influence, and was revered by her son, the future King Henry VIII. Drawing from a rich trove of historical records, Weir gives a long overdue and much-deserved look at this unforgettable princess whose line descends to today's British monarch—a woman who overcame tragedy and danger to become one of England's most beloved consorts. Praise for Elizabeth of York "Weir tells Elizabeth's story well. . . . She is a meticulous scholar. . . . Most important, Weir sincerely admires her subject, doing honor to an almost forgotten queen."—The New York Times Book Review "In [Alison] Weir's skillful hands, Elizabeth of York returns to us, full-bodied and three-dimensional. This is a must-read for Tudor fans!"—Historical Novels Review "This bracing biography reveals a woman of integrity, who . . . helped [her husband] lay strong groundwork for the success of the new Tudor dynasty. As always in a Weir book, the tenor of the times is drawn with great color and authenticity."—Booklist "Weir once again demonstrates that she is an outstanding portrayer of the Tudor era, giving us a fully realized biography of a remarkable woman."—Huntington News

COSTA AWARD FINALIST ECONOMIST BOOK OF THE YEAR FINANCIAL TIMES BOOK OF THE YEAR Film rights acquired by Gold Circle Films, the team behind My Big Fat Greek Wedding "A fresh, thrilling portrait. . . .Guy's Elizabeth is deliciously human." –Stacy Schiff, The New York Times Book Review A groundbreaking reconsideration of our favorite Tudor queen, Elizabeth is an intimate and surprising biography that shows her at the height of her power. Elizabeth was crowned queen at twenty-five, but it was only when she reached fifty and all hopes of a royal marriage were behind her that she began to wield power in her own right. For twenty-five years she had struggled to assert her authority over advisers, who pressed her to marry and settle the succession, now, she was determined not only to reign but to rule. In this magisterial biography, John Guy introduces us to a woman who is refreshingly unfamiliar: at once powerful and vulnerable, willful and afraid. We see her confronting challenges at home and abroad: war against France and Spain, revolt in Ireland, an economic crisis that triggers riots in the streets of London, and a conspiracy to place her cousin Mary Queen of Scots on her throne. For a while she is smitten by a much younger man, but can she allow herself to act on that passion and still keep her throne? For the better part of a decade John Guy mined long-overlooked archives, scouring handwritten letters and court documents to sweep away myths and rumors. This prodigious historical detective work has enabled him to reveal, for the first time, the woman behind the polished veneer: determined, prone to fits of jealous rage, wracked by insecurity, often too anxious to sleep alone. At last we hear her in her own voice expressing her own distinctive and surprisingly resonant concerns. Guy writes like a dream, and this combination of groundbreaking research and propulsive narrative puts him in a class of his own. "Significant, forensic and myth-busting, John Guy inspires total confidence in a narrative which is at once pacey and rich in detail." -- Anna Whitelock, TLS "Most historians focus on the early decades, with Elizabeth's last years acting as a postscript to the beheading of Mary Queen of Scots and the defeat of the Spanish Armada. Guy argues that this period is crucial to understanding a more human side of the smart redhead." – The Economist, Book of the Year

Royal sorceress or a queen slandered? The true story of Elizabeth Wydeville, Edward IV's extraordinary queen. She has traditionally been portrayed as a scheming, cold-blooded and conceited opportunist. Yet was she a calculating adulteress or a tragic wife and mother?

When Edward of York seized the English throne in 1461, he could have chosen any bride he wanted, but it was the beautiful widow, Elizabeth Wydeville, who captured his heart. A new assessment of the tumultuous life of the real White Queen and her husband

This book tells the story of the queen whose marriage to King Henry VII ended England's Wars of the Roses and inaugurated the 118-year Tudor dynasty. Best known as the mother of Henry VIII and grandmother of Elizabeth I, this Queen Elizabeth contributed far beyond the act of giving birth to future monarchs. Her marriage to Henry VII unified the feuding houses of Lancaster and York, and her popularity with the people helped her husband survive rebellions that plagued his first decade of rule. Queen Elizabeth's gracious manners and large family created a warm, convivial Court marked by a rather exceptional fondness between the royal couple. Her love for music, literature, and architecture also helped inspire England's Renaissance.

DIVRecovers the history of nineteenth- and early-twentieth-century African American reading societies./div

Elizabeth Woodville is undoubtedly a historical character whose life no novelist would ever have dared invent. She has been portrayed as an enchantress; as an unprincipled advancer of her family's fortunes and a plucky but pitiful queen in Shakespeare's histories. She has been alternatively championed and vilified by her contemporaries and five centuries of historians, dramatists and novelists, but what was she really like? In this revealing account of Elizabeth's life David Baldwin sets out to tell the story of this complex and intriguing woman. Was she the malign influence many of her critics held her to be? Was she a sorceress who bewitched Edward IV? What was the fate of her two sons, the "Princes in the Tower"? What did she, of all people, think had become of them, and why did Richard III mount a campaign of vilification against her? David Baldwin traces Elizabeth's career and her influence on the major events of her husband Edward IV's reign, and in doing so he brings to life the personal and domestic politics of Yorkist England and the elaborate ritual of court life.

The real story of the 'Kingmaker's Daughter'. Published to coincide with the reburial of Richard III
