After this brief characterisation, the essentials are being transferred into the field of geometric design by postulating some general principles that should be followed, in order to enable a "psychological geometric design of roads" Conclusion The thesis described in this paper dealt with the impact of human behavior on driving ...

Influence of Human Behaviour on Geometric Road Design ...

While advances in machine learning and artificial intelligence will continue to inform an understanding of human behavior and interactions in different settings, this work will require a solid foundation built on validations of mental workload. References [1] Young, M. S., Brookhuis, K. A., Wickens, C. D., Hancock, P. A. (2014).

What Is Mental Workload? [And How To Measure It]

Jinks, J. L. & Fulker, D. W. (1970) Comparison of the biometrical genetical, MAVA and classical approaches to the analysis of human behavior. Psychological Bulletin 73 : 311 -49. [aRP, DB, MZ]

Absence or underestimation of shared environment ...

Managing a project schedule seems like a straight-forward and explicit task. But when the concept of time is introduced, developing and managing a project schedule becomes greatly complicated, primarily because time is shaped by cultural influences. This paper examines how culture can affect a multicultural project team's orientation to time, and in turn, shape the team's project performance.

Everything about time - Monochronism - Polychronism ...

Another frequently calculated measure is the compensation index (Koele and Westenberg 1995) which quantifies the degree of compensatory search behavior by considering depth of search (i.e. the ...
