For example, software code documentation, technical specifications and API documentation. User documentation refers to the documentation for a product or service provided to the end users. The user documentation is designed to assist end users to use the product or service. This is often referred to as user assistance.

User documentation - Computer Science Wiki

The review of systems is distinct. For example, if the documentation read, "The patient states she has a sore throat," credit would not be given to both the HPI location and to the review of the ENT system. But if the documentation specifies, "The patient states that she has a sore throat. She denies any postnasal drip or fullness in her ears when she swallows," there is a distinct component of both the HPI and a separate ENT system review.
