this book so you

don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy).

Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. We look over

each document carefully and replace poor quality images by going back to the original source document. We proof each document to make sure it's all there - including all changes. If you find a good copy, you could print it using

you share with 100
other people
(typically its either
out of paper or

no problem, but if
it's 250-pages, you
