Execution is "the missing link between aspirations and results," and as such, making it happen is the business leader's most important job. While failure in today's business environment is often attributed to other causes, Bossidy and Charan argue that the biggest obstacle to success is the absence of execution.

#1 NEW YORK TIMES BESTSELLER [] More than two million copies in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. "A must-read for anyone who cares about business."—The New York Times When Execution was first published, it changed the way we did our jobs by focusing on the critical importance of "the discipline of execution": the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, radical change is becoming routine, and the ability to execute is more important than ever. Now and for the foreseeable future: [] Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge. [] Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management. [] Governments will take on new roles in their national economies, some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation. [] Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a "vision" and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world—including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup—Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and insightful as Bossidy and Charan.

BUSINESS STRATEGY "The 4 Disciplines of Execution "offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator s Dilemma)." Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it s likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever.

Confronting Reality will change the way you think about and run your business. It is the first book that shows how to connect the big picture of the new era of business with the nitty-gritty of what to do about it. Through a completely new way to understand and use the business model as the primary tool for confronting reality—a breakthrough that will become the management innovation of this decade—you'll know sooner rather than later whether your fundamental business premise is under assault, where your best opportunities lie, what you should change and what you should leave alone, and how to realistically plan the future of your business. The fundamentals of how a business makes money are being rapidly and permanently altered by sweeping structural changes. With their extraordinary depth and breadth of experience, Larry Bossidy and Ram Charan are the ideal guides for everyone—entrepreneur, mid-level manager, or CEO—about what is to be done so you can get things right in this challenging, radically changed world. They start by showing you how to understand the most fundamental element of any business: whether you can realistically make the money you hope to in the game you're playing. Bossidy and Charan show how to use the business model to develop a robust, reality-based process for thinking about the specifics of your business in a holistic way. They show how to tie together the financial targets you must meet, the external realities you face, and internal activities such as strategy development, operating tactics, and selection and development of people. Through the lens of the business model, as well as the skillful use of initiatives and development of people with the right leadership characteristics, you'll see how Robert Nardelli at Home Depot, Jim Mcnerney at 3M, Dick Harrington at the Thomson Corporation, Michael Wisbrun at KLM, Joseph Tucci at EMC, and John Chambers at Cisco confronted reality. Whether they faced crisis or opportunity, all made the right kinds of changes through a combination of business savvy (the art of understanding the fundamentals driving a business) and business model thinking.

Examines the reasons why companies lose their best employees, which range from poor management to toxic work environments, and offers advice on boosting employee confidence.

Essential hiring and team-building lessons from the #1 Podcaster in the world The Effective Hiring Manager offers an essential guide for managers, team leaders, and HR professionals in organizations large or small. The fundamental principles of hiring and interviewing How to create criteria to hire by How to create excellent interview questions How to review resumes How to conduct phone screens How to structure an interview day How to conduct each interview How to capture interview results How to make an offer How to decline a candidate How to onboard candidates Written by Mark Horstman, co-founder of Manager Tools and an expert in training managers, The Effective Hiring Manager is an A to Z handbook to the successful hiring process. The book explores, in helpful detail, what it takes to hire the right person, for the right job, and the right team.

The Art of Persuasion teaches you how to get what you want when you want it. You would love to have that ability, right? After studying some of the most successful men and women in modern history, author Bob Burg noticed how many common characteristics these people have—and shares them all with you. One trait that stands above all the rest is their ability to win people over to their way of thinking—they were all persuasive. Each of these life winners had a burning desire, coupled with great creativity, and a total, unshakable belief in their mission or cause. The Winning principles you will learn include: Making People Feel Important Everything is Negotiable Dealing with Difficult People Persuasion in Action What Sets You Apart from the Rest Nuggets of Wisdom Presented in everyday, clear, and often humorous language, The Art of Persuasion leaves an impression on you that will last a lifetime—filled with one success after another!

Charan has seen the business world from both ends of the spectrum. While growing up in India, working in his family shoe business, he came to understand how a business works and the critical elements of success. A powerful lesson in what is really important in business, this remarkable book takes the lessons of the peddler and reveals how they can be used by the rest of us.

Argues that developing and implementing an execution strategy plan which involves all employees will ensure that small and mid-sized companies will be able to manage growth, remain innovative, and increase profitability.

For companies to be competitive, leaders must engage people at all levels in order to focus their energy and enable them to apply lean principles to everything they do. Strategy deployment, called hoshin kanri by Toyota, has proven to be the most effective process for meeting this ongoing challenge. In his new book Getting the Right Things Done, author and LEI faculty member Pascal Dennis outlines the nuts and bolts of strategy deployment, answering two tough questions that ultimately can make or break a company's lean transformation: * What kind of planning system is required to inspire meaningful company-wide continuous improvement? * How might we change existing mental models that do not support a culture of continuous improvement? Getting the Right Things Done demonstrates how strategy deployment can help leaders harness the full power of Lean. Organization leaders at all levels and the management teams who are responsible for strategy deployment will find this book especially insightful. It tells the story of a fictional (yet very real) mid-sized company, Atlas Industries that needs to dramatically improve to compete with emerging rivals and meet new customer demands. Getting the Right Things Done chronicles the journey of the company and its President/COO, an experienced lean leader who was hired five years ago to steer Atlas in the right direction. While Atlas had already applied some basic lean principles, it had not really connected the people and business processes so that the company could dramatically improve. Atlas' challenge: "Something was missing: a way of focusing and aligning the efforts of good people, and a delivery system, something that would direct the tools to the right places." Enter strategy deployment. The book is designed to provide readers with a framework for understanding the key components of strategy deployment: agreeing on the company's "True North," working within the PDCA cycle, getting conse

The authors bring their experience as consultants to the managers of such large companies as CocaCola, Dupont, and Ford to bear on the quest for continual, profitable growth, showing companies in any industry how to foster it. Reprint. 25,000 first printing.
