A key motivation for governments considering public-private partnerships (PPPs) is the possibility of bringing in new sources of financing for funding public infrastructure and service needs. This section provides an introduction to financing projects. It is not intended to be an exhaustive guide. More details can be found in the materials in the Further Reading and Resources section.

## **Financing | Public private partnership**

Public-private partnership (PPP) is one of the forms of such collaboration between government and the private sector. It is based on the recognition that both the public and private sectors can benefit by pooling their financial resources, know-how and expertise to improve the delivery of basic services to all citizens.

## **Public Private Partnerships - Ministry of Finance**

Public private partnerships. An infrastructure procurement method involving the use of private sector capital to wholly or partly fund an asset (that would otherwise have been purchased directly by the government) which is used to deliver government objectives.
