Forensic Anthropologists: identify individuals who died in mass disasters, wars, or due to homicide, suicide, or accidental death. Examine skeletal remains to determine identity of unidentified bones. 3.

Forensic Science Specialist Answer sheet - Forensic ...
Forensic scientists convert these clues, using the latest technology into evidence admissible in a court of law. Forensics and Human Biology have a lot in common. Much of the evidence that is collected is biological—for example: body fluids and hair. Other evidence, such as ballistics and trace fibers, is compared using a tool commonly used by biologists: the microscope. As you build your ...

WebQuest: CSI Experience: Web Adventures
How Forensic Dentistry Works. by Shanna Freeman. Types of Teeth. Prev NEXT . 2008 HowStuffWorks Teeth aren't fingerprints; they aren't inherently unique from birth. When teeth grow in, or erupt, they do so differently in each person. Teeth grow an average of 4 micrometers per day, so it's possible to give a rough age estimate based on teeth. It can also be possible to distinguish ethnicity ...
