The overstated notion that " form follows function " is not a plausible equation in adaptive reuse. In this case, function has to unquestionably follow form. Architects seem to be more eager to seek form rather than to merely serve programmatic function.

Function Follows Form? — BRAVE / Architecture

It was the first form of contamination between the principles of architecture and the ones of video games, at least before the arrival of three-dimensional worlds in the mid-1990s. From that moment on, the space was not only two-dimensional, but could be explored with less or more freedom. Creating a map meant to create a space to interact with.
