In the year 12,020 G.E., Hari Seldon arrives in the domed city of Trantor and begins to develop his theory of psychohistory, which predicts the rise of a power greater than the Empire. Reissue.

This book presents the ontological and logical foundation of a new form of thinking, the beginning of an absolute phenomenology. It does so in the context of the history of thought in Europe and America. It explores the ramifications of a categorically

Kelly Slater, and actor Matthew McConaughey.

Crassostrea virginica, the eastern oyster. These humble bivalves are the living bones of the Chesapeake and the ecological and historical lifeblood of the region. When colonists first sailed these impossibly abundant shores, they described massive shoals of foot-long oysters. But the bottomless appetite of the Gilded Age and great fleets of skipjacks took their toll. Disease, environmental pressures and overconsumption decimated the population by the end of the twentieth century. While Virginia turned to bottom-leasing, passionate debate

continues in Maryland among scientists and oystermen whether aquaculture or wild harvesting is the better way forward. Today, boutique oyster farming in the Bay is sustainably meeting the culinary demand of a new generation of connoisseurs. With careful research and interviews with experts, author Kate Livie presents this dynamic story and a glimpse of what the future may hold.

When the First Foundation was conquered by a force Seldon had not foreseen - the overwhelming power of a single individual, a mutant called the Mule - the second Foundation was forced to reveal its existence and, infinitely worse, a portion of its power. One

Download File PDF Foundation

man understood the shifting patterns of the inhabited cosmos. This was Hari Seldon, the last great scientist of the First Empire. The mathematics of psychohistory enabled Seldon to predict the collapse of the Empire and the onset of an era of chaos and war. To restore civilization in the shortest possible time, Seldon set up two Foundations. The First was established on Terminus in the full daylight of publicity. But the Second, "at the other end of the galaxy", took shape behind a veil of total silence. Because the Second Foundation guards the laws of psychohistory, which are valid only so long as they remain secret. So far the second Foundation's location, its most closely guarded secret of all, has

soybeans. With a mind for ingenuity, Henry Ford looked to improve life for others. After the Great Depression struck, Ford especially wanted to support ailing farmers. For two years, Ford and his team researched ways to use farmers' crops in his Ford Motor Company. They discovered that the soybean was the perfect answer. Soon, Ford's cars contained many soybean plastic parts, and Ford incorporated soybeans into every part of his life. He ate soybeans, he wore clothes made of soybean fabric, and he wanted to drive soybeans, too. Award-winning author Peggy Thomas and illustrator Edwin Fotheringham explore this American icon's little-known quest.

Foundation

B-boying is a form of Afro-diasporic competitive dance that developed in the Bronx, NY in the early 1970s. Widely - though incorrectly - known as "breakdancing," it is often dismissed as a form of urban acrobatics set to music. In reality, however, b-boying is a deeply traditional and profoundly expressive art form that has been passed down from teacher to student for almost four decades. Foundation: B-boys, B-girls and Hip-Hop Culture in New York offers the first serious study of b-boying as both unique dance form and a manifestation of the most fundamental principles of hip-hop culture. Drawing on anthropological and historical research, interviews and personal
