Their agenda has included assassinations of two of America's most popular presidents; involvement of the United States against the public will in two world wars; and detonation of the world's most destructive weapon, the atomic bomb, on Japanese civilians. It has included scores of regional wars, political assassinations, coups, and systematic corruption of the body politic. The book reveals in an unusual and surprising manner how this powerful elite has systematically set out to literally control the entire world, backed by the most powerful military force the world has ever seen.

Award-winning essayist Lance Morrow writes about the partnership of God and Mammon in the New World—about the ways in which Americans have made money and lost money, and about how they have thought and obsessed about this peculiarly American subject.

Fascinated by the tracings of theology in the ways of American money Morrow sees a reconciliation of God and Mammon in the working out of the American Dream. This sharp-eyed essay reflects upon American money in a series of individual life stories, including his own. Morrow writes about what he calls “ the emotions of money, ” which he follows from the

catastrophe of the Great Depression to the era of Bill Gates, Oprah Winfrey, and Donald Trump. He considers money ' s dual character—functioning both as a hard, substantial reality and as a highly subjective force and shape-shifter, a sort of dream. Is money the root of all evil? sometimes went unappreciated among
his own people, recognized money as
the key to full American citizenship.
