## **Health Informatics Plan 2014 to 2019 - [cddft.nhs.uk](http://cddft.nhs.uk)**

The latest development of public health informatics, such as geographic information system (GIS), which uses digitized maps from satellites or aerial photography, can be used to provide a large volume of data. 4 This enables the combination of various information such as geographic location, trends, conditions and spatial patterns. GIS along with the incorporation of mobile technology has proved to be useful in tracking infectious disease, public health disasters and bioterrorism.
