~~15 Steps to Good Research | Georgetown University Library~~

Broadly speaking research is gathering authoritative information to support an argument or point of view. We research all the time, not just for academic purposes. For example, when you buy a pair of trainers you don't simply wander into a shop, pick up the first pair you see, pay for them and walk out. You check the various styles, you compare one pair with another, and you look at the price and perhaps compare it with other shops and online stores.
