Incisive insights into contemporary pop culture and its apocalyptic bent The world is going to hell. So begins this book, pointing to the prevalence of apocalypse - cataclysmic destruction and nightmarish end-of-the-world scenarios - in contemporary entertainment. In How to Survive the Apocalypse Robert Joustra and Alissa Wilkinson examine a number of popular stories - from the Cylons in Battlestar Galactica to the purging of innocence in Game of Thrones to the hordes of zombies in The Walking Dead - and argue that such apocalyptic stories reveal a lot about us here and now, about how we conceive of our life together, including some of our deepest tensions and anxieties. Besides analyzing the dystopian shift in popular culture, Joustra and Wilkinson also suggest how Christians can live faithfully and with integrity in such a cultural context.

The Apocalypse could arrive at any moment, but with Surviving the Apocalypse, you'll be well-prepared and well-trained enough to survive any disaster-even the end of the world as we know it. Being prepared for what's out there is important-you have to know what to do when everything falls apart. Knowing how to survive the end of the world as we know it will prepare you for anything and everything that could possibly go wrong. From packing the proper survival kit, to surviving on the battlefield, being physically fit, and coping in the event of a socio-economic collapse, Soldier of Fortune magazine, along with N. E. MacDougald, will make sure that you're never caught off-guard in any situation, from natural and economic disasters to pandemics and civil unrest-even nuclear war. The purpose of this book is to provide the reader with real-world, practical information that will help them to not only survive, but thrive during a period that is likely not just another downturn in the economic cycle, but according the many experts, instead the beginning of a long downward slide, and possibly the very peak in our 10,000-year experiment of civilization. While you may not plan on being in a war zone, you never know what will happen, so the best thing to always do is be prepared. Whether it's learning how to barter and haggle, how to get the proper camouflage, or how to choose the right weapon for any situation, MacDougald and Surviving the Apocalypse will give you the training and knowledge that goes into surviving any and every dangerous situation imaginable.

sit idle as a bunch of fools make all the wrong moves. All hell is about to break loose—and YOU have a say in humanity's survival. You have choices to make. Moral dilemmas. Strategic decisions. Weapons. Vehicles. Will you be a hero? Or will you cover your own ass at all costs? Can you withstand the coming hours, days, weeks, and months? Or will you die amidst the chaos and violence of a zombie uprising? Or, worst of all, will you become one of them?

We guarantee this is the only tool you need to survive the zombie apocalypse. OK, that's not really true. But when the SHTF you're going to want a survival guide that's not just geared toward day-to-day survival. You'll need one that addresses the essential skills for true nourishment of the human spirit. Living through the end of the world isn't worth a damn unless you can enjoy yourself in any way you want. (Except, of course, for anything having to do with abuse. We could never condone such things. At least the publisher's lawyers say we can't.) We can't guarantee this guide will save your life. But we can guarantee it will keep you smiling while the living dead are chowing down on you.

How would you go about rebuilding a technological society from scratch? If our technological society collapsed tomorrow what would be the one book you would want to press into the hands of the postapocalyptic survivors? What crucial knowledge would they need to survive in the immediate aftermath and to rebuild civilization as quickly as possible? Human knowledge is collective, distributed across the population. It has built on itself for centuries, becoming vast and increasingly specialized. Most of us are ignorant about the fundamental principles of the civilization that supports us, happily utilizing the latest—or even the most basic—technology without having the slightest idea of why it works or how it came to be. If you had to go back to absolute basics, like some sort of postcataclysmic Robinson Crusoe, would you know how to re-create an internal combustion engine, put together a microscope, get metals out of rock, or even how to produce food for yourself? Lewis Dartnell proposes that the key to preserving civilization in an apocalyptic scenario is to provide a quickstart guide, adapted to cataclysmic circumstances. The Knowledge describes many of the modern technologies we employ, but first it explains the fundamentals upon which they are built. Every piece of technology rests on an enormous support network of other technologies, all interlinked and mutually dependent. You can't hope to build a radio, for example, without understanding how to acquire the raw materials it requires, as well as generate the electricity needed to run it. But Dartnell doesn't just provide specific information for starting over; he also reveals the greatest invention of them all—the phenomenal knowledge-generating machine that is the scientific method itself. The Knowledge is a brilliantly original guide to the fundamentals of science and how it built our modern world.

Will the world, as we know it, end in our time? It's the intention of this book to teach you what you'll need to know IF it does. Spiritual/scientific predictions, asteroid impacts, pandemics, economical/governmental collapse, solar flares, electrical grid failure, climate change, epic floods, WW3, Planet-X, peak oil, super tsunamis, alien invasions, how the government's preparing; this book has it all, and teaches how you and your family can survive it all. A complete self-help guide not only for the end times, but any global crises, of which we seem to be having plenty of lately. Written by a retired Boeing Aerospace Technician who lived six years 100% self-sufficient and cut-off from society; Dan Martin presents eye-opening views of humanity; and his insights into possible future events are breath-taking, to say the least. The book makes you wonder, is the end closer than we think? Are any of us really prepared?

"By the author of the award-winning To Be a Machine, a deeply considered look at the people and places in confrontation with the end of our days. We're alive in a time of worst-case scenarios: The weather has gone uncanny, volatile. Our old post-war alliances are crumbling. Everywhere you look there's an omen, a joke whose punchline is the end of the world. How are we to live in the shadow of such a grim future? What does the world hold for our children? What might it be like to live through the worst? And what is anybody doing about it? Dublin-based writer Mark O'Connell ("wryly humorous, cogently insightful"—NPR) is possessed by these questions. In Notes from an Apocalypse, he crosses the globe in pursuit of answers. He tours survival bunkers in South Dakota. He ventures to New Zealand, a favored

retreat of billionaires banking on civilization's collapse. And he bears witness to those places where the future has already arrived--real-life portraits of the end of the world as we know it. In doing so, he offers us a unique window into our apocalyptic imagination. Part tour, part pilgrimage, *Notes from an Apocalypse* is an affecting and hopeful meditation on our alarming present tense. With insight, humanity, and wit, O'Connell leaves you to wonder: What if the end of the world isn't the end of the world?"--
