The Success Secrets of a Stock Market Legend Jesse Livermore was a loner, an individualist-and the most successful stock trader who ever lived. Written shortly before his death in 1940, How to Trade Stocks offered traders their first account of that famously tight-lipped operator's trading system. Written in Livermore's inimitable, no-nonsense style, it interweaves fascinating autobiographical and historical details with step-by-step guidance on: Reading market and stock behaviors Analyzing leading sectors Market timing Money management Emotional control In this new edition of that classic, trader and top Livermore expert Richard Smitten sheds new light on Jesse Livermore's philosophy and methods. Drawing on Livermore's private papers and interviews with his family, Smitten provides priceless insights into the Livermore trading formula, along with tips on how to combine it with contemporary charting techniques. Also included is the Livermore Market Key, the first and still one of the most accurate methods of tracking and recording market patterns

Investing and trading stocks on the stock market is one of the best ways to build and secure your future. Whether you are interested in trading to make it your living, build your retirement, or make some extra cash each month. Having a solid foundation when you are first getting started is one of the best ways to be a profitable and winning trader. This book focuses on giving you the proper foundation to trading stocks in the stock market even if you know nothing about the markets! You will learn very similar concepts and principles that I teach in my courses that cost hundreds and thousands of

dollars.

During the last thirty-three years I have been a persistent student of the security markets. As a member of several Stock Exchange firms, as a bond dealer, trader and investor, I have come into active contact with many thousands of those who are executing orders and handling markets, as well as those who deal in such markets, namely traders and investors. For the past fifteen years I have edited and published The Magazine of Wall Street, which at this writing has the largest circulation of any financial publication in the world. These experiences have given me an opportunity to study not only the stock and bond markets, but all those related thereto, and have enabled me to observe the forces which influence these markets and the human elements which contribute so largely to their activity and wide fluctuations. Out of this experience I have evolved or adopted or formulated certain methods of trading and investing, and some of these I have collected and presented in the pages which follow. My purpose in preparing this book has been two-fold. Primarily, I have in mind the thousands of new investors who find the securities market a vast, technical machine, too complex to be understood by many. It has been my effort to do away with this impression—to emphasize the fact that, in Wall Street as anywhere else, the chief essential is common sense, coupled with study and practical experience. I have attempted to outline the requirements for success in this field in a way that will be understandable to all. This classic includes the following chapters: I. First Lessons II. Profitable Experiences III. Why I Buy Certain Stocks and Bonds IV. Unearthing Profit Opportunities V. Some Experiences in Mining Stocks VI. The Fundamentals of Successful Investing VII. The Story of a Little Odd Lot VIII. Rules I Follow in Trading and Investing IX. Forecasting Future Developments X. Truth About “Averaging Down” XI. Conclusions as to Foresight and Judgment XII. Safeguarding Your Capital XIII. How Millions Are Lost in Wall Street XIV. Importance of Knowing Who Owns a Stock

Livermore started trading in securities when he was fourteen years old. He made his first thousand when a mere boy. He has practiced every device known to the active speculator, studied every speculative theory, and dealt in about every active security listed on the New York Stock Exchange. He has piled up gigantic fortunes from his commitments, lost them, digested, started all over again—and piled up new fortunes. He has changed his market position in the twinkling of an eye—sold out thousands of shares of long stock, and gone short of thousands of shares more on a decision which required reading only the one word, “but,” in a lengthy ticker statement. If his later experiences were not enough to catch the public fancy, Livermore would have won it by his greatest feat of all: beating the bucket shops. Beating the cheaters, in fact, was Livermore’s pet plan after things had gone against him and he was forced to start anew on a small-lot basis.

Success as a day trader will only come to 10 percent of those who try. It's important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I'll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.

Learn a powerful trading strategy in just 15 minutes. Then use it to make money for the rest of your life. Ready to get started trading stocks, but don't know where to begin? Momentum stocks are a great place to start. Imagine what it would be like if you started each morning without stress, knowing exactly which stocks to trade. Knowing where to enter, where to take profits, and where to set your stop loss. In this book, you will learn:

- How to spot a stock that is about to explode higher
- Exactly when to buy and sell the stock
- How to screen for the best stocks to trade
- Insider tricks used by professional traders
- How to find big winners like Apple and Facebook
- How to tell if you are in a bull market, or a bear market

Now, in *Trade Like a Stock Market Wizard*, Minervini shares--for the first time ever--his coveted methodology with investors like you!

Written by one of America's most colorful and flamboyant speculators, who made... and lost... four multi-million dollar fortunes. He was once blamed for causing the 1929 Crash, and for precipitating every market break from 1917 to 1940. This book is Livermore's legacy to the speculator for all time, in which he states his philosophy of trading and lays down the list of rules that are necessary to win at the speculative process. This valuable book by a Wall Street great is a collector's item.
