Smaller engines were originally equipped with the Hurth HBW50 transmission. Larger engines used the HBW100 transmission. Unfortunately, the smaller transmission has been discontinued entirely. The closest replacement transmission, ZF's 10M is a very close replacement for either but due to their limited production, they are more expensive.

ZF - HURTH transmission in my 346 Carver - knocking sound when idling in gear, at 1200 rpms - quiet - at 3000 rpms same sound and motor starts to lose power. My question is could the transmission be causing the loss of power to the engine or do I have 2 problems. I was told by a mechanic the loss of power was probably the fuel pump.
