editions, but adds depth and potentially lifesaving information to keep the police officer safe and secure. The book provides a general orientation for survival, and details the specifics the intelligent police professional must master in order to survive the many types of risky situations he will be exposed to over a career. The book is painstakingly thorough in its approach to officer survival in an era where peacekeepers are required to be highly transparent and accountable in all of their actions. Every use of force by a law enforcement officer will be closely scrutinized. This is one reason why it is important that today's officer has access to every viable tactic and technique that may prevent the need for force in the first place. The book details everything from searching an arrested individual to searching a building; arresting a 300-pound outlaw biker to a surly teenager. Techniques and strategies discussed in the book include personal preparation for risk reduction, vehicle stops and contacts, defusing disturbances, domestic violence, burglaries and structure searches, barricades and hostage-takers, vehicle pursuits, ambush attacks, emotionally disturbed and mentally ill persons, prisoner control and transport, terrorist threats, off-duty confrontations, and reducing the emotional risks involved. At the end of each vital chapter, a quick and concise "Risk Reduction Checklist" is presented. These chapter summaries are excellent for review and

An Appendix has been included containing informative accounts of police deaths, culled from the "Law Enforcement Officers Killed and Assaulted Report" put together by the Federal Bureau of Investigation. Other accounts are also found at the end of each chapter. Each one makes a point by way of grim example, yet every tragedy described can help save the life of an alert police officer who might otherwise become one more statistic. This unique and comprehensive text will be invaluable to all law enforcement professionals, investigators, policymakers, and police academics.
