[DOC] Interceptor Royal Air Force Multi Gun Single Seat ... An interceptor aircraft, or simply interceptor, is a type of fighter aircraft designed specifically for the defensive interception role against an attacking enemy aircraft, particularly bombers and reconnaissance aircraft. There are two general classes of interceptor: relatively lightweight aircraft built for high performance over short range, and heavier aircraft designed to fly at night or in adverse weather and operate over longer ranges. For daytime operations, conventional fighters normally

Aircraft | Royal Air Force BAC/Dassault AFVG was a unfinished 1960s project for supersonic multi-role combat aircraft with a variable-sweep wing.[N 1] by British Aircraft Corporation in the United Kingdom and Dassault Aviation of France. The proposal was borne out of ambitions to produce a viable combat aircraft that made use of the variable-sweep wing, as well as to promote wider cooperative efforts between France and the United Kingdom. However, neither Dassault nor the French Air Force were particularly keen on the AFV
