Checking Transmission Fluid Step 1. Pull out the transmission fluid dipstick located at the back of the engine near the firewall. Wipe it off, replace it and pull it out again. Check the level against the markings at the bottom of the dipstick. A low level should be addressed immediately with a transmission specialist.  
Step 2

I have a 4700 IH with a Spicer 6+1. I would say it is  
not hard to shift but can be difficult. Going from 2nd  
to 3rd is where I have the most trouble. Seems like  
the slot is small and hard to line up, downshifting is  
the same. That is the only trouble I have with mine, if  
I am in a hurry it is worse.
