Learn Bass 1: First Steps for Beginners
The great thing about playing bass is
that all the strings are tuned in 4ths.
Since they're consistent, if you learn a
pattern or position in one key, all you
have to do is move it around the neck
and you can play the same pattern in
any key, just by moving your hands.

Lesson Plan Title : Patterns. Age
Range: Kindergarten through Grade 2
(Primary / Elementary School)

Overview and Purpose: This activity
will help students see the logic of
creating patterns and help them
begin to be able to create their own.
The lesson should begin with the
definition of the word 'pattern'
(things arranged following a rule).

Lesson Plan: Patterns

Students will be able to identify what
a pattern is and predict what should
come next in patterns. Students will
be able to create an AB pattern. The
adjustment to the whole group
lesson is a modification to
differentiate for children who are
English learners.

Lesson 3: Circle Square Patterns.

Overview. ... As the lesson concludes, students share their rules with classmates. Purpose. Eventually, students will need to understand the binary number system which uses 1's and 0's rather than circles and squares. This lesson acts as a bridge to the next lesson where binary is formally introduced and practiced.
