Skilled Documentation The following terminology . does not . sufficiently describe the reaction of the resident to his/her skilled care: Tolerated treatment well Continue with POC Remains stable This type of documentation does not provide a clear picture of the results of the treatment, nor the "next steps" that are planned.

Documentation Guidelines for Skilled-Care

The long term care industry (a.k.a. nursing home industry) employs a large share of new and experienced nurses in the United States. Furthermore, the number of nurses who secure employment in this specialty is projected to increase in the next ten years as the oldest members of today's upper middle-aged Baby Boomer cohort reach their 70s.
