The first female chief of a large tribe, the Cherokee Nation in Tahlequah, tells her life story, from her childhood on Mankiller Flats to her struggle to lead her people into a new century.

As a child in Oklahoma, Wilma Mankiller experienced the Cherokee practice of Gadugi, helping each other, even when times were hard for everyone. But in 1956, the federal government uprooted her family and moved them to California, wrenching them from their home, friends, and traditions. Separated from her community and everything she knew, Wilma felt utterly lost until she found refuge in the Indian Center in San Francisco. There, she worked to build and develop the local Native community and championed Native political activists. She took her two children to visit tribal communities in the state, and as she introduced them to the traditions of their heritage, she felt a longing for home. Returning to Oklahoma with her daughters, Wilma took part in Cherokee government. Despite many obstacles, from resistance to female leadership to a life-threatening accident, Wilma's courageous dedication to serving her people led to her election as the first female chief of the Cherokee Nation. As leader and advocate, she reinvigorated her constituency by empowering them to identify and solve community problems. This beautiful addition to the Big Words series will inspire future leaders to persevere in empathy and thoughtful problem-solving, reaching beyond themselves to help those around them. Moving prose by award-winning author Doreen Rappaport is interwoven with Wilma's own words in this expertly researched biography, illustrated with warmth and vivacity by Linda Kukuik.

After five centuries of Eurocentrism, many people have little idea that Native American tribes still exist, or which traditions belong to what tribes. However over the past decade there has been a rising movement to accurately describe Native cultures and histories. In particular, people have begun to explore the experience of urban Indians--individuals who live in two worlds struggling to preserve traditional Native values within the context of an ever-changing modern society. In Genocide of the Mind, the experience and determination of these people is recorded in a revealing and compelling collection of essays that brings the Native American experience into the twenty-first century. Contributors include: Paula Gunn Allen, Simon Ortiz, Sherman Alexie, Leslie Marmon Silko, and Maurice Kenny, as well as emerging writers from different Indian nations.

Insights into how history continues to influence contemporary Native life.

The Wild West: 365 Days is a day-by-day adventure that tells the stories of pioneers and cowboys, gold rushes and saloon shoot-outs in America's frontier. The lure of land rich in minerals, fertile for farming, and plentiful with buffalo bred an all-out obsession with heading westward. The Wild West: 365 Days takes the reader back to these booming frontier towns that became the stuff of American legend, breeding characters such as Butch Cassidy and Jesse James. Author Michael Wallis spins a colorful narrative, separating myth from fact, in 365 vignettes. The reader will learn the stories of Davy Crockett, Wild Bill Hickok, and Annie Oakley; travel to the O.K. Corral and Dodge City; ride with the Pony Express; and witness the invention of the Colt revolver. The images are drawn from Robert G. McCubbin's extensive collection of Western memorabilia, encompassing rare books, photographs, ephemera, and artifacts, including Billy the Kid's knife.

Published two years ago to coincide with the route's sixty-sixth anniversary, the social history of Route 66, which spurred a revival of the dying American road, evokes the magic of the people and landscapes that surround it. Reprint.
