## From The Lives

Wow! This is a  
powerful book that  
addresses a long-  
standing elephant  
in the mathematics  
room. Many people  
learning math ask  
``Why is math so  
hard for me while  
everyone else

understands it?"  
and "Am I good  
enough to succeed  
in math?" In  
answering these  
questions the book  
shares personal  
stories from many  
now-accomplished  
mathematicians  
affirming that  
"You are not  
alone; math is hard  
for everyone" and

"Yes; you are too good enough." Along the way the book addresses other issues such as biases and prejudices that mathematicians encounter, and it provides inspiration and emotional support for mathematicians ranging from the
