Yes, I already have a complete set of templates for the
MD-80 series, but the DC-9 is a major aircraft type that I
needed to get into my collection ASAP. The good news is that
I think it's going to be a lot easier than the 737 series was.
There are only a handful of major DC-9 variants, and all of
them are relatively similar to one another. In order to keep
things as simple and organized for me, I've decided to start
with the latest version first (the -50) and then work my way
backwards.
